You will find a total of three videos on this page. The first Gravity Falls theme song easy piano tutorial consists of the right hand part or the melody of this song only. As usual, I will play the song and you will be able to view the notes at the top. Please try as much as possible to copy the fingering I use or to finger the notes in a way that is as close as possible to mine. You don't have to play it exactly like me, but you can use my fingering as a guide. For the absolute beginner, it may seem easier to play with one or two fingers, but believe me when I say it is much easier to use all your fingers. Much, much easier. All you need is to keep practicing and to develop a habit of playing that way. Go here to learn about my piano courses. They will help you play better.
