Punctuation for class 6

Can you imagine a paragraph without any periods or commas? In truth, it would be almost unreadable. There are 14 punctuation marks in English grammar, and, at minimum, one of them has to appear in every sentence, never mind every paragraph, to make it easily understood. The good news is, with fourteen different punctuation marks to choose from, variety will remain the spice of life. Follow these 6 basic punctuation rules and they will help you to write more clearly and effectively. 6 Basic Punctuation Rules When punctuation is parallel it means that interrupting a main clause with a dash or a comma requires the same punctuation at both the beginning and end of the clause. Incorrect: The teenagers, students from Mrs. Smith's art class-went on a field trip to the museum. Correct: The teenagers, students from Mrs. Smith's art class, went on a field trip to the museum. Correct: The teenagers-students from Mrs. Smith's art class-went on a field trip to the museum. This rule also means that you should not use a semicolon to set off just one item in a list. Incorrect: I have lived in Des Moines, Iowa, Seattle, Washington; and Boise, Idaho. Correct: I have lived in Des Moines, Iowa; Seattle, Washington; and Boise, Idaho. An emdash (the longest of the three dashes) can be used for many of the same purposes as a comma. A pair of emdashes might be used if the sentence already contains commas. Similarly, it might be used to mark off information for emphasis. An emdash can also act alone, drawing attention to a modifier or an extra piece of information. Here are a few examples: Sarah hated walking to school-it was all uphill-but she had no choice, she had missed the bus again. For his birthday, Mark received a sweater, a jacket, a savings bond-and a new bike! Pizza, chocolate, and ice cream-these are my favorite foods. If you have trouble deciding when to use a colon in your writing, it helps to ask yourself if a period or question mark would be appropriate in the same location. If the sentence is already complete, you may use a colon to add a list, elaboration, or restatement. List: I have three brothers: David, Kent, and Jacob. Elaboration: I have decided not to move to San Francisco: I have been offered a better job in Milwaukee. Restatement: Thinking back, Jenny wasn't sure who started yesterday's fight: she couldn't decide whether she was at fault or her friend Annie. Parentheses can be used to show elements in a sentence that are related but not necessary to understand the meaning of the sentence. Parentheses can be replaced by commas in most cases, although the use of parentheses tends to de-emphasize a piece of information. My family visited several countries (Italy, France, Portugal, and Spain) on our vacation last year. If the information inside the parentheses forms a complete sentence within the larger sentence, no punctuation is necessary. The snow (April saw it when she passed the window) completely covered the trees. An apostrophe is used to show possession or ownership. An apostrophe and an -s should be added to singular possessive nouns, plural possessive nouns that do not end in -s, and singular possessive nouns that end in -s. Only an apostrophe should be used when showing possession or ownership for a plural possessive noun that ends in -s. Singular possessive noun: Susan's book Singular possessive noun ending in -s: Chris's car Plural possessive nouns: the children's school Plural possessive noun that ends in -s: my parents' house An apostrophe can also be used to show that a letter has been omitted from a word to form a contraction. For example, "they're" is a contraction of "they are" and "it's" is a contraction of "it is." (Note that "its" is a possessive pronoun.) Now that you've got the basic punctuation rules under your belt you're ready to tackle your problem areas.
