All avengers movies in sequence

All marvel avengers movies in sequence. List of all avengers movies in sequence. What is the sequence of all marvel movies. What is the correct order of all marvel movies.

(Image criterion: Walt Disney / Marvel Studios) Another Avengers movie is coming at some point, Marvel CCO Kevin Feige confirmed in a new interview. Although a new movie of Avengers do not make part of the plane for Marvel's phase 4 "due to the kick on Friday with Wandavision release at Disney Plus - at some point, you will see The group of superhero reassembled on the large screen. "I would have to think so. I would have to say yes, at some point," said Feige when asked directly on the perspective of a new avenger film by Igm." It is a good title. I could use it, "he added jokingly." Previously he said esada that phase 4 is about "gets", and "learn new things about characters that you already think". The first is summarized by Disney. Plus TV shows such as Moon Knight, Ms Marvel, She-Hulk, Ironheart and Hawkeye, all of which have new superherels, or new iteration of those who already know (Hawkeye presents Clint by Jeremy Renner Barton training New Vigilant Archer named Kate Bishop, played by Hailee Steinfeld). New films like the eternal of Shang-chi and Marvel also continue this theme. Meanwhile, "New Things" learning about family hergs can be applied to late black movie - Currently scheduled for release on May 7, 2021. Wandavision, Falcon and Winter Soldier and Loki TV shows at Disney more all fit Bill, too. The Avengers movie is currently in the launch schedule, and Marvel has f Films Scheduled to the end of 2022. Various, like Jon Watts' Fantastic four, guardians of the Galaxia vol. 3 and Ant and Vesp: Quantummania, still has official launch dates. It is not clear when phase 4 ends and phase 5 begins, then, but you probably have a few years to wait until the avengers remonquem. What could happen in a new movie of avengers? (Image criterion: Marvel) 'Multiverse' is widely expected to be the new comprehensive threat or subject of some other marvel movies - our best guess is that this will take for a future Avengers film as well m. In terms of comics, this means the potential of characters to visit alternative realities or be visited by residents of other realities. The animated movie MCU Aranha-Man: For the verse of Spider offers the easiest explanation of how this works.Feige has already said that "the multiverse is the next step in the evolution of the MCU ", This is more obvious in the 2022, strange in the multiverse of madness, which mentions the idea in the title. But recent reports also launched the light on what Marvel may be planning for the future. Spider-Man's next film starring Tom Holland - due to the release of this December - is expected to present Alfred Molina and Jamie Foxx reprise his Doc Oock and Electro papers, respectively. This despite not starting as MCU characters, suggesting that characters from other realities will tie the action somehow. (Maybe this explains how the Deadpool will also go part of the MCU.) Photo Cedida: Paramount Photos / IMDB Everyone thinks the cinema is a great adventure - and sometimes it is. The actors make a lot of money to perform in the character for the camera, and the crew directors and members spill an incredible talent to create a "movie magic" that makes everything look simple and fun. However, some of the most famous films in history had such challenging and frustrating production that everyone cared about would be box office flops - or completely discarded before the conclusion. Take a look at our list of incredible movies that almost did not get to the big screen. The Wizard of Oz is a iconic classic, so it is difficult to believe that tthe bright spectacle of 1939 mgm has almost never been done. From the beginning, it took 17 writers and six directors to face the When shot finally started, filming was a disaster. Photo Courtesy: Collection of silver / Getty images The original tin man, friend Eben, had to replacement by Jack Haley because of an allergy to aluminum makeup. The canine companion of Dorothy, toto, poorly behaved, and witch western witchcraft Margaret Hamilton was accidentally burned during filming. Despite the difficulties, the film collected more than \$ 2 million and remains a timeless classic. The adventure drama of 1982 Fitzcarraldo had one of the most difficult production of cinema history. The film was director Werner Herzog, the Crazy History of Baron Fernin Fitzcarrald. Filmed in South America, one of the most famous scenes in the film involves dragging a hilly hill of a hill. Photo Courtesy: Jean-Louis Atlan / SYGMA / Getty images Herzog rejected stubbornly using miniature effects and insisted that they shoot the scene with a real 320 tonnes ship. The scene was a disaster - there were innumerable injuries and even deaths. The actors suffered from dysentery and two small air accidents resulted in additional injuries. It's a miracle that the movie was completed. Rapa-Nui was almost condemned from the beginning. The Historic Drama of 1994 focuses on the story of the Pávo Island. Director Kevin Reynolds described film filming as a "nightmare." It was difficult to do because of the location's departure. Photo Courtesy: Flights from Warner Bros./IMDB from and to the Mainland of Chile was scarce. Reynolds said: "We had a vain per week from the continent, and there were times when we stayed without food to feed people." Besides the filming challenges, the film only tidied up \$ 305,000. Still, apparently Reynolds did not learn the lesson. After this office bomb, he immediately faced another difficult film: Waterworld. The 1995 Scientific Fiction Thriller Waterworld involved many aquatic filming sites, which proved to be an expensive headache for all involved. Director Kevin Reynolds and his film team had to build artificial sea islands, which quickly swallowed the budget of \$ 100 million. Photo Courtesy: Universal Actors / Getty Images, including Coster Kevin, were transported from dry land to the films of filming. Besides, Costner almost died when he was caught in a squall. Two double dubs were wounded, and young co-star Tina Majorino was chopped three times by living water. Eventually, Reynolds moved away from the project, and Costner finished his own film. It is a miracle that no one was killed during the creation of the 1981 roar adventure thriller. The film focuses on the preservationist of wildlife Hank (Noel Marshall), who lives with a zoologic of lions, tigers and other wildlife. Marshall, who also wrote, directed and produced the film, decided to work with more than 100 live animals - real. Photo Cedida: Filmways Photos / IMDB around 70 members of the cast and crew have suffered injuries. Marshall's wife, Tippi Hedren, was bitten by a lion in her throat, and her stepdaughter, Melanie Griffith, suffered an injury on her face. Cinematographer Jan de Bont almost had his ripped scalp. If you watch the movie and everyone seems scared, it's because they were. If you think a drama about a group of teenagers in the dance of 1960 would be simple to do, think again. The American film of George Lucas, 1973, American graffiti had many complications for the scenes. First, a member of the crew was arrested for growing marijuana. The actor Paul Le M Mat suffered an alemigic reaction to a walnut an the head of Richard Dreyfuss was cut off. Photo Courtesy: Universal Pictures / Getty Images In addition, Harrison Ford was arrested during a bar fight, and somebody burnt for Lucas's hotel room. The film was a disaster in the creation, but it became an acclaimed movie of the DA © 1970. It put \$ 750,000 and remains a classic of worship until today. The drama of the scientific fiction of James Cameron 1989, Abyss, was an ambitious project. With a SA © Rie of Scenes The submersible petroleum platform took 18 months to build. The movie budget was about \$ 2 million. Members of the cast and crew usually work 70 hours a week, week. Actors Ed Harris and Mary Elizabeth Mastrantonio were on the verge of a mental collapse. Photo courtesy: 20th sleep fox / imdb at a point, Mastrantonio shouted to Cameron: "We are not animals!" This was in response to the director's suggestion that the actors should urinate in their dive clothes to save time between the outlets. While the film was well received critically and collected \$ 90 million, everyone was happy when I finished. Director Richard Stanley desperately wanted to embark on his dream project: an adaptation of the romance of Hg Wells, "the island of Dr. Moreau. Stanley was especially thrilled when acclaimed actor Marlon Brando signed to play the role of the title. But then, three days to film the 1996 thriller, Stanley was fired. Photo Courtesy: New Line / Getty Images Actor Val Kilmer Confronto with Stanley, and intense arguments led producers to shoot him and hire John Frankenheimer as a substitute. However, this was not the end of the problems, like Kilmer and Brandão also did not get it. (Someone thinking that maybe the problem was Kilmer?) Francis Ford Coppola was determined to continue his success driving after the godfather. He decided to adapt the romance from Joseph Conrad's dark in a war film in Vietnam conflict. This project has become the 1979 apocalypse drama now. Photo Courtesy: Caterina Milinaire / Sigma / Getty Images for realism, Coppola shot in the movie in the Philippines. Filming lasted more than a year, and all endured storms and terrible scripts. The lead actor Martin Sheen until she suffered a cardiac attack. Coppola described the filming: "We were in the jungle. We had lots of money. We had a lot of equipment. And little by little, we're crazy. Similar to apocalypse now, the 1980 drama gate, the gate of spiraled sky out of control. The film was behind the horaker and went through budget. The obsession of Michael Cimino director with detail and precision of the period led to repeated reconstructions for sets. In addition, Cimino insisted on a unnecessary number of needs - since even waits for a particular cloud float in view. Seriously? Photo Courtesy: Mondadori / Getty Images In the end, Cimino passed about \$ 44 million in production costs, and the film only raised \$ 3.5 million at the box office. While developing a cult following, he did not make enough money to justify investment. Cimino learned your lesson? Cleopatra has always been intended to be large. The Romantic epic of 1963 starred Elizabeth Taylor and Richard Burton, and the vast budget allowed the production crew to build elaborate sets. The film continues to be the most expensive movie already done - almost spoke fox of the cell XX. Photo Courtesy: API / Gamma / Gama-Rave / Getty Images Director Joseph L. Mankiewicz replaced Rouben Mamoulian soon after filming began, and production stopped when Taylor became seriously ill. Some of the elaborate sets were not used. Taylor and Burton began an intense love case that brought a lot of negative attention to the film. After all, the film is still considered the most glamorous historical pica has already done. The 1967 musical fantasy dollittle has been disturbed from the beginning. He had a difficult star (Rex Harrison), terrible climate for filming, rebellious animals, expensive reactions and ill-chosen filming sites. It was a disaster, and no one liked to work in the movie, including local residents in the village of Castle Combe Wiltshire, United Kingdom. Picture Courtesy: Silver / Getty Images Collection Construction for the film Angry residents, who had to remove their television antennas from their homes due to the movie's historic time permit. The film cost more than \$ 17 million and only \$ 6.2 million. The Remake of 1998, starring comedian Eddie Murphy, got out much better. O William Friedkin is known for going "All Out" for his films. The exorcist director built a gigantic bridge over a Dominican Republic river for his 1977 1977 Sorcerer. When the river bed dried, Friedkin moved to the motion, where he built another bridge over the papaloapão river. This river was also dried before shooting start. Photo Courtesy: Universal Pictures / IMDB Rivers Weren The only drama. During filming, 50 crew members were sick with malaria, food poisoning and gangrene. However, Friedkin did not give up. All others did not like to work on the movie, but the director says he "would not change a picture" of the movie. On days before -cgi, the 1984 fantasy terror movie, Gremlins faced many complications. Director Joe Dante and his creative team dealt with problems caused á ě á ě ce by dozens of effects of the movie creature. "We were inventing the technology as we went together, as well as getting away from the script as we discovered new aspects of the characters of Gremlins," explained Dante. Photo Courtesy: Eamonn M. McCormack / Getty Images He added: "It really was going crazy after a while. The studio was not especially solidary. The process of shooting the special effects became as it RDUO that the scene in which the gizmum is stark with darts was added to the movie strictly to meet the crew. The director Elaine can confess: "I knew about acting, but I did not know anything about the movie." She admitted that she felt the adventure of 1987 Ishtar was a "screw up". For one thing, shooting in the Sahara desert was a man's idea. What and his crew were fearful that they were kidnapped, arrested in landmines, or caught in the midst of a civil war - if they survived the heat. Photo courtesy: Columbia Photos / IMDB tensions grew between May and the cast. The director is sometimes shot more than 50 times. The film cost \$ 51 million and only He raised a third of his orth. The film has Dustin Hoffman, but not much of U. m worship. That has not addressed a movie since then. The Scientific Fiction Thriller script of 1992 Alien 3 was repeatedly rewritten, even after the sets were built and the production had already begun. Various directors worked on the project before David Fincher step on the Council. Throughout the process of production, Fincher was frustrated by cast producers, crew and studio. Photo Courtesy: Rolf Konow / Sigma / Corbis / Getty Images that he had to repeatedly reveal several scenes, and producers recumpet the film behind the back of the director. He finally got so bothered with the movie he refused to be associated with him. He was happy to be done with the project, and we can not really blame him for feeling like that. Originally, Brad Pitt should star starring the scientific fiction drama of 2006 the source. The film centered around him, but then lowered the photo due to script disagreements only weeks before production. Director Darren Aronofsky fought to find a replacement actor - they eventually chose Hugh Jackman - and Warner Bros. Closed the production. Photo Courtesy: Warner Bros./IMdB Two years later, Aronofsky returned to the project with a budget less than \$ 35 million. From the beginning to the end, it took almost five years to get the movie to the big screen. The result was a notable movie that still reached only \$ 10 million at the box office. Trey Parker and Matt Stone's 2004 Ação War to Terror, Amesian team: World Police, was shot with puppets in sound and turned into a demanding production. They produced the film with puppets that led four people to operate. Some shots were so complex that they took a full day to film. Photo Courtesy: Paramount / IMDB Stone commented: "It was the worst moment of my entire life. I never want to see a puppet again." Stone and Parker promised they would never drive another movie again. Until today, they kept their word on this front. If you think there can be no drama producing an excited movie, think again. The film Disney 2000, the new emperor's new groove had many problems. Originally titled Kingdom of the Sun, the film should be marked by the record of artists. However, your They were abandoned after a response, and the original director (Roger Allers) left the project. Photo Courtesy: Walt Disney Production / IMDB New Director Mark Dindal entered to save the project. The budget of the film was revised, and Dindal had to work quickly to transform the film into a christ and financial success. Despite the frantic pace, Dindal managed, and the film raised \$ 169 million. After the success of Universal with the fantasy of 1999, Mother, Mark Romanek director created 2010 is Wolfman. Unfortunately, the movie had some furry problems. Four weeks in production, Romanek stopped and Joe Johnston took over. He requested many repositos, and a new screenwriter was brought to change the final of the original script. Photo Courtesy: Universal Pictures / IMDB In addition, the creators of visual effects struggled to complete the final scenes of the film. New publishers were added to production, and Danny Elfman's score was abandoned, just to be later restored. Although the film collected \$ 139 million, it has not come close to the success of Mother. Marc Forster's 2013 Science Fertion Thriller World War I required more extras than the film. Many of the furious film zombies were reached by CGI, but hundreds of others were real life extras. A scene shot in Malta requires 900 extras. The number of people in the set reached about 1,500 at one point. Photo Courtesy: Paramount Images / IMDB The film hit many problems, including the convulsion of a huge cache of weapons by officers of a counter-terrorism unit. Several action scenes were scratched in the last minute, and the end was changed several times. The film cost \$ 190 million, but it was a financial hit financial at the box office, bifurating \$ 540 million. Director George Miller spent 14 years of his life working in the fantasy of scientific fiction of 2015 Mad Mad: Fury Road. He insisted on filming the film with so many special practical effects as possible, and he repeatedly fell real cars to the action scenes of the film. Photo Courtesy: Warner Bros. Images / IMDB In addition, the film started without an official script. Instead, Miller used hundreds of storyboards. At the time he finished filming, he had 400 hours of filming available. He must have taken a lot of time to edit the film, but it was worth it. The film finally won a gym for the best movie edition. Director Ridley Scott was excited to work on the adaptation of Philip K. Dick's romance movie, the Androids dream of Electric Sheep? However, he probably had no idea how difficult 1982 the scientific fantasy fantasy corridor would become. He had a fractel relationship with the cast and the crew, leading to many heated debates. Photo Courtesy: Boulevard of the Sun / Corbis / Getty Images Harrison Ford seemed bored Most of the time in all the time, and several collaborators described filming as "torture". The final shot was captured, just as the producers arrived to pull the plug. The film did not take off at the beginning but grew up in a favorite worship in the years since its release. The producers thought that the pirates of the Carribean should not have been made. In 2002, Disney CEO Michael Eisner tried to pull the plug, not wanting another box office flop, like the country's bears. Even the actress Keira Knightley had her doubts. When she was asked about her next project, she said, "It's a pirate thing" probably a disaster ". Photo Courtesy: Walt Disney Pictures / IMDB producers did not like Johnny Depp 4" © S "Keith Richards' Jack Sparrow. Eisner was sure that he would ruin the film. Despite all negativity, the film collected more than \$ 650 million at the global box office and generated an adored franchise. When the comic book, Michael Uslan started to work for the DC comics, he had the To buy Batman's rights and make a sleeping movie on the Caped Crusade. When he told Vice President Sol Harrison about his idea, Harrison warned that the brand was dead and to drop the project. Courtesy Photo: Courtesy: Boulevard / Corbis / Getty Images No one supported him, then the USLAN began to work without a script or a crew. When actor Michael Keaton signed the star as Batman, the fans sent in more than 50,000 letters in protest. However, when the film debuted in 1989, reached \$ 411 million globally - and Keaton became the best Batman to the moment. It took some time to go back to the future of the floor. Robert Zemeckis and the fantasy of Scientific Fiction of Bob Gale's 1985 was refused by studios for years. Finally, the famous director Steven Spielberg signed as a producer, and the film found a home with universal photos. Photo Courtesy: Universal Images / IMDB Producers loved the idea of Michael J. Fox starring as Marty McFly, but they did not know that he could commit to the movie due to his system of television, taço Relatives. They originally launched the mask actor Eric Stoltz, but he was fired, and the fox took on the role. The film collected more than \$ 381 million worldwide and generated a successful franchise. Star Wars is one of the biggest franchises of all time. The first film, launched in 1977, had extensive special effects, causing the film to let back almost immediately. It seemed an effort without hoping sometimes. Photo Courtesy: LMPC / Getty Images George Lucas Blew passed the budget of the film and was forced to split his crew into three separate units to finish the film. Fox's executives were convinced from Star Wars it would be a flop, but they were wrong - very, very wrong. Star Wars was a colossal success, and the rest is the intergalactic history. You would think that James Cameron's experience is filming the abyss that he would have avoided water-based movies. Instead, he directed the historical drama of 1997 Titanic. Filming was not very well, and crew members described Cameron as a "300-decibel screamer." In addition, the actors supported hours in cold water. Cedidia Photo: Paramount Pictures / IMDB At one point, a crew member nailed the lobster soup with a hallucinogene drug, which sent Cameron and more than 50 people to the hospital. The budget was expelled from the water, but it worked at the end. The film raised more than \$ 2 billion and won academy for best photo and best director. Director Stanley Kubrick was determined to transform King Stephen, the brightness in a perfect movie. The 1980 Flick Psychological Horror was a long production. Kubrick ordered several resumptions, often throwing scenes more than 100 times. The famous scene "here is Johnny," which counted on Jack Torrance (Jack Nicholson) forcing an ax through a door, took three days to film and destroyed more than 60 doors. Photo Courtesy: Warner Brothers / Getty Images It was just supposed to take 100 days to shoot the movie, but the production really lasted 250 days. Kubrick was supposedly so hard to work with that Shelley Duvall actress, her hair began to fall, and she suffered a nervous collapse. Damn! There was never a movie like the 1975 horror drama jaws. The film was severely on budget due to mechanical problems with Bruce, the false movie shark. Members of the crew called "failures". It should only take 55 days to shoot the movie, but it became 159 days. Photo Courtesy: Universal Pictures / IMDB Meanwhile, actors Richard Dreyfuss and Robert Shaw were in a bitter dispute. It helped that the movie boat had a broken hull and really began to sink. Spielberg was sure his career is over, but the film raised more than \$ 100 million and became one of the most popular movies. done.
