### Book Descriptions:

We have made it easy for you to find a PDF Ebooks without any digging. And by having access to our ebooks online or by storing it on your computer, you have convenient answers with 8910 bissell manual . To get started finding 8910 bissell manual , you are right to find our website which has a comprehensive collection of manuals listed.

Our library is the biggest of these that have literally hundreds of thousands of different products represented.

## Book Descriptions:

# 8910 bissell manual

Your ProHeat is well made, and we back it with a full one-year warranty. You'll find assembly and operating instructions, safety precautions, as well as maintenance and troubleshooting instructions. Choose the SmartMix setting that fits the cleaning job. The handle locks the lid in place. Carry it like a bucket to fill at the sink. Note You may notice hair and debris deposits on the carpet that were loosened by the brushing action especially with newer carpets that have never been deep cleaned before. Pour out dirty water. After each use, remove and rinse the lint screen located on the tank lid. A. Remove tank assembly from unit. B. Remove tank lid. C. Remove any debris caught in lint screen. D. Reinsert lint screen on tank lid. Remove easily moved furniture from the room chairs, lamps, coffee tables, etc. Vacuum thoroughly to pick up loose debris and pet hair before using the ProHeat. Plan your cleaning route to leave an exit path. It is best to begin cleaning in the corner farthest from your exit. Repeated strokes in the same area with an ordinary vacuum or deep cleaner may aggravate this condition. Please see Stain Removal instructions on page 12. Failure to attend to an accident soon after it occurs may cause it to set and become permanent. Before treating any stain, follow these pretreatment steps Blot up liquids with an absorbent cloth or paper towels. White materials are recommended because certain dyes may bleed and make the stain worse. Make certain tool is securely in place. Move the TurboBrush switch to the "BRUSH" position. For best results the post cleaning treatment should be applied while the carpet is still wet or damp. Check manufacturer's tag before cleaning. "W" or "WS" on the tag means you can use your ProHeat. Caution Do not use on hardwood floors. Use BISSELL Floor Cleansing Formula. Vacuum or sweep thoroughly to pick up loose debris and pet hair. Caution Do not over wet. <http://www.e-skala.pl/userfiles/adria-optima-440b-manual.xml>

**TAKING THE UNIT APART**

**WARNING:** To reduce the chance of electrical shock, unplug before servicing.  
Do not disassemble the unit until you have performed the troubleshooting steps and diagnosed checks in pages 5-7. Repair malfunctioning techniques and diagnosis of the problem are given in the Troubleshooting section.  
Place the unit on a service platform as described on page 5.  
Release the handle fully.  
Remove the solution and clean water tanks.  
Remove four screws from the rear cover, two screws from the access cover and the screws securing the front handle.

You must also remove the top dust before you remove the access cover.

**TAKING THE UNIT APART (continued)**

Make sure to take note of how all tubes and wires are connected to, from and around the pump.

To avoid getting stuck in a hole, do not push the motor pickup up. Remove it from the motor pickup hole.

Remove (2) screws at rear of unit.

**TAKING THE UNIT APART (continued)**

Removing the access cover will give you access to nearly all parts that may require service.

**REPLACING THE PUMP**

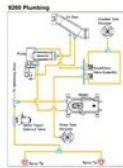

Make sure to take note of how all tubes and wires are connected to, from and around the pump.  
Disconnect all three pump wires connections.  
Disconnect "pump to brush" tube.  
Remove the two pump mounting screws located behind in the front.  
The screw on the machine right is a 1/2" long clear washer head screw.  
The screw on the machine left is a 1/2" long black pan head screw.

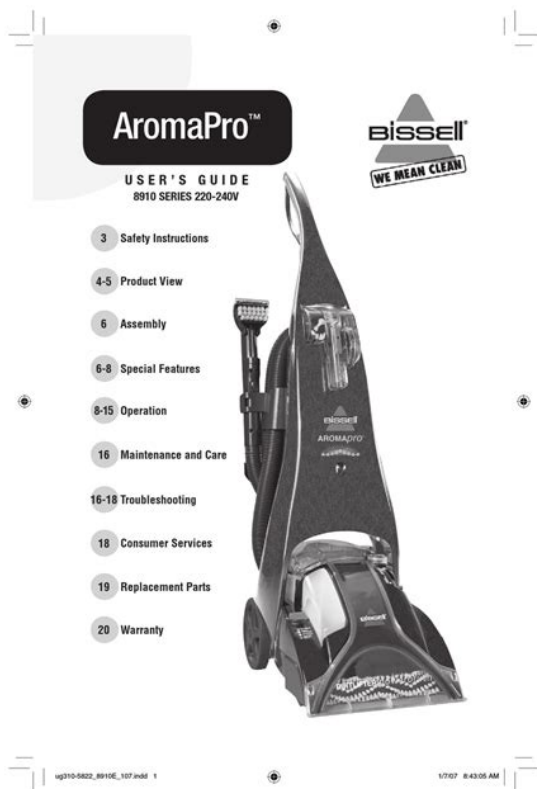

Lift the pump out of the frame and engine.  
Leave the black venting duct attached to the venting tube.

**PUMP WIRING INFORMATION:**

Pump power wire is 8" long and does not have a change.  
Connect from the top of the pump to the air duct.  
Pump solenoid wire is 7" long and is clamped on both ends.  
Connect the pump solenoid to the SmartTemp™ wire assembly.  
Pump venting tube is 1/2" long and may have a half-permanent spring on it.  
Connect from the venting duct to the air duct.  
Pump to heater wire is 5.5" long and is clamped on both ends.  
Connect the pump to the heater solenoid.

Repeat the motion without pressing the trigger using the Bare Floor Tool to squeegee and suction up the dirty water. Step on the release pedal and recline the handle down onto floor. see illustration. Remove TankInTank and SmartMix tanks. Set them aside see illustration. Do not twist the replacement pump belt. Troubleshooting SmartTemp Ready Light does not illuminate. Possible Causes Remedies The SmartTemp switch is not Turn on the SmartTemp switch. turned ON. The machine Power Switch is not Both switches must be ON to turned ON. Possible Causes Remedies The Brush Belt or Pump Belt Turn the machine OFF and unplug from is off or broken. the outlet. To check if a Pump Belt has broken, you will need a flat head screwdriver. Insert the blade end into the lower slot of the Belt Access door to release the lower snap. If you need additional instruction regarding this warranty or have questions regarding what it may cover, please contact BISSELL Consumer Services by Email, telephone, or regular mail as described below. <http://www.gasparedicaro.com/images/canon-legria-fs20-user-manual.pdf>

It is flowing fine on the hand held brush, what should I troubleshoot Thank you for your question. The front cover should either pop off from unlatching it form the top of the vacuum, or be unscrewed from the back. As for the solution not spraying out on the main floor brush, ifs likely the filter is clogged and would need to be cleaned. So after cleaning the front cover and solution tank it should dispense the solution. We hope this helps! Do I need a new pump assy, or do you have any other ideas It would be time to replace it. WJA However the model number 8910 Bissell Proheat Clearview, looks very similar to the images of 89104 that I saw. And the B0136986 diverter valve is used in this model. Look at the parts diagram and see if it is the same as yours. Hope this helps, WJA. Cleaning Supplies Cleaning Supplies So, we make cordless products that can clean up those messes. This product is manufactured in united states. In order to navigate out of this carousel, please use your heading shortcut key to navigate to the next or previous heading. To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzes reviews to verify trustworthiness. Please try again later. R. Taubmann 5.0 out of 5 stars Much cheaper and more environmentally responsible to repair rather than replace and toss the old one in the garbage for a relatively simple fix. I'd give it 5 stars but, since the pump needs replacing every 5 years it get 4 stars. The pump is perfect and restored our carpet cleaner to operating like new again. Easy to install with just a Philips screwdriver and a pair of pliers to remove small hose clamps. The replacement works great and it arrived a day earlier. To prolong the life of the pump run the cleaner with the heater off after with clean water to clear out any cleaning fluid left in the machine. Sorry, we failed to record your vote. Please try again. Sorry, we failed to record your vote. Please try again. As other reviews have said start with the simple stuff and work your way to the expensive. I went through my machine many times before I realized that everything was working but the pump and as the units are sealed I couldn't check on anything inside the pump. So I bought this pump along with a. Installing the pump isn't hard but please make a note of what hoses were attached where. I can only imagine what would happen if you switched a couple and sent solution into the vacuum motor instead of towards the heater or spray nozzles. My machine is at least 15 years old, possibly more and it still works as well as ever.

This was the most extensive part I've replaced but the main thing is to clean the cleaner very well after you're done using it. Run lots of clean water through it then let it dry out as much as possible

before putting it away and they will last. Sorry, we failed to record your vote. Please try again  
However, it turned out that this was not my problem and I am writing this to possibly help someone else. After cleaning the carpet on my stairs, where the Proheat accessory tool was used, the cleaner worked fine. About a week later, I decided to clean my living room carpet. Neither the accessory brush nor the floor unit would spray. After some aggravating time taking the unit apart, including the water heater, I decided the water pump was the culprit. After the installation, no joy. Turned out that the spray nozzles on the accessory and the floor unit both clogged up at the same time. Cleared them out and the unit was fixed. Before ordering parts, meticulously clear your spray nozzles and open your water heater to clean out buildup deposits. These little units are really quite simple and easy to fix if you use your head and go from simple fixes and work your way up unlike what I did this time. I hope I have helped someone. Another suggestion Using distilled water could likely prevent issues where mineral deposits clog the jets. Sorry, we failed to record your vote. Please try again Im not sure why Bissell wouldnt make this piece available as a standalone, but this seller provided me with a great price on the whole unit, and assembly was very simple after following one of many instructional videos online. I was also pleased to see that on this pump, the toothed gear is metal as opposed to the original plastic. It appears to be a lowgrade, brittle type of aluminum, but it is still preferable to the original plastic. Sorry, we failed to record your vote. Please try again Like many have mentioned, make sure to check the hoses and heater for any clogs first.

<http://lalitas-thaimassage-spa.de/wp-content/plugins/formcraft/file-upload/server/content/files/1627ee17c7a181--brother-pt-1750-user-manual.pdf>

Sorry, we failed to record your vote. Please try again The belt drive cog seems to be stronger and is working great after installation. If you doubt your ability to replace one in your unit just go to YouTube and you will find plenty of step by step guides to complete this project. Way cheaper than buying a new one! Sorry, we failed to record your vote. Please try again With the help of a Youtube video, was easy to change out. Sorry, we failed to record your vote. Please try again I'm not sure if it's defective or what happened, but I didn't think we would need to replace it after one or two uses. Sorry, we failed to record your vote. Please try again Sorry, we failed to record your vote. Please try again This pump got it running just like the original. Sorry, we failed to record your vote. Please try again My machine works great now and Im glad I made this purchase because it saved me a lot of money. Sorry, we failed to record your vote. Please try again Sorry, we failed to record your vote. Please try again Sorry, we failed to record your vote. Please try again. Even though parts may look the same, there are often variances in similar parts and it is important to buy parts that fit your specific model. Please try again. Select the series that matches your model number. Try checking the product description for more information. Please try again. Please try again. In order to navigate out of this carousel please use your heading shortcut key to navigate to the next or previous heading. Please try your search again later. The brand name of the product is Bissell Homecare international To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzes reviews to verify trustworthiness. Please try again later. Kareema 5.0 out of 5 stars Bought for friend. This bottle leaks just as bad. Sorry, we failed to record your vote.
