Refer servicing to qualified serviceIMPORTANT Be sure not to placeYour DIRECTV Receiver has been designed and manufactured to stringent quality and safety standards. You should, however, be aware of the following important precautions for safe and optimal use of the equipment. Meaning of symbols printed on the rear panel of the product. The “ bolt of lightning” indicates uninsulated material within your unit may cause an electrical shock. For theThe “exclamation point” calls attention to features for which you should read the enclosed literature closely toImportant Safety InstructionsKeep these instructions. Install in accordance with the manufacturer’s instructions. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus including amplifiersDo not defeat the safety purpose of the polarized or groundingtype plug.

A polarized plug has two blades with one grounding prong. The wide blade or the narrow blade of the provided plug does not fit into your outlet, consult an electrician for protection. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they connect to the power source. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When in use, do not touch the power cord or the apparatus. Unplug this apparatus during lightning storms or when unused for long periods of time. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way. CAUTION: Avoid moisture to reduce the risk of fire or electric shock. The DIRECTV Receiver should not be used near water for example, kitchen sink, bathtub, etc. Also, never spill liquid on the receiver, and do not place vases or other vessels containing liquid on top of it. Blocking the airflow to the unit can cause overheating. Also, do not stack the receiver on top of a "hot component" such as an audio amplifier. Use of a surge protector is also recommended. It's also important to use only the type of power source indicated on the receiver. Opening or removing covers may expose dangerous voltage or other risks, and incorrect reassembly or attempted self-repair may also void your warranty. Changes or modifications to this receiver's specifications without the express written authorization of DIRECTV may void your warranty. For your information, the identification sticker can be located underneath or on the back of your receiver. Note to Satellite Dish Installer: This reminder is provided to call your attention to articles 810 and 820 of the 2002 National Electrical Code. Refer to article 810, which requires that a surge protector be installed on the line side of the service entrance. Refer also to the 810.2 which, by the way, states that there is a danger of explosion. Replace only with same or equivalent type and rating. A good way to begin learning about your DIRECTV System is to read the manual. Keys in the shaded area below can be programmed to function with your VCR, DVD player or standalone DVR unit.
