- **dreambox 500 manuale d uso, dreambox 500 manuale d uso 2017, dreambox 500 manuale d uso en, dreambox 500 manuale d uso de, dreambox 500 manuale d uso 2.**

You will be asked if you want to set the basic settings for your Dreambox now or if you want to quit the start wizard. Pagina 17 17 Entering the pincode Finalizing the basic setup 3.6 Network The network wizard will assist you with the network setup of your Dreambox. Usually the standard setting Use DHCP should work if you have connected your Dreambox to a internet router. Pagina 19 19 Finalizing the network wizard You will see this screen once the activation process was successful. Otherwise you will get the chance to try it once again from the start. 4. Basic operation 4.1 Turning your Dreambox on and off Use the Power Button to turn your Dreambox on and off. Navigate to the desired option and confirm by pressing the OK Button. Sleep timer Put your Dreambox into Standby after a duration of time that can be chosen freely. For more info see chapter 9. Standby Puts your Dreambox into Standby mode. Pagina 21 21 4.5 Changing the audio track Pressing the AUDIOButton in TV or Radio Mode will reveal the "Audio" menu of the selected service. 4.6 Sub Services The green dot in the Infobar appears if the selected station transmits sub services. Use the NavigationButtons up and down to move to desired audio track. Pagina 22 22 4.10 Infobar The Infobar appears and disappears by pressing the OKButton once, if no OSD menu is shown on your screen or when you change channels. Pagina 23 23 Pressing the red OptionsButton opens a listing of similar broadcasts. By pressing the green OptionsButton you can set a timer for this rerun. 5.1 SingleEPG In this view you are supplied with detailed information about the currently selected channel's programming. Pagina 24 24 General overview of the following programming. A window will appear where you can enter a time and date. A window will appear where you can enter a time and date. After you have entered the desired time and date press the OK Button to activate you

selection. 6. Edit the channellist What is a bouquet. <http://elfast.ru/userfiles/corona-rp8d1-receiver-manual.xml>

A bouquet can be thought of something like a folder. Pagina 26 26 6.1 Adding a bouquet To be able to add a bouquet you have to set the "Allow multiple bouquets" option to yes. Pagina 27 27 6.2 Add a service to favorites If you want to add a service to your Favoritesview you can choose from services in the All, Satellites and Provider views. You can switch views by pressing the red, green, yellow and blue OptionsButtons. At this point we only describe the process from the AllBouquet since it is the same for the others. Pagina 28 28 By pressing the MenuButton the "Channellist menu" will open up. Navigate to the option "enable bouquet edit". The Allview will open up. All services that are in the selected bouquet are highlighted red. Navigate to the option "remove service". Pagina 30 30 6.6 Adding a marker to favorites You have the option to add markers within the favorites bouquets. Use the NavigationButtons up and down to move the service to the desired position. Press the OKButton to release the service and thus placing it at its new position. Pagina 31 31 As an example we have added two markers as shown in the picture on the left. Use the ArrowLeft and ArrowRightButtons to jump between those two markers. 6.7 Parental control Parental control makes it possible to lock selected channels. If no OSD menu is visible on your screen, press the MenuButton to open the main OSD menu. Pagina 32 32 You now will be prompted to enter the old pincode and afterwards the new one. You have to enter the new pincode twice to ensure you didn't make any typing errors. You will see this notice that the pincode has been changed. Press the OKButton to get back into the Parental control menu. Pagina 33 33 The Parental control services Editor will open up. All services beginning with the letter P are shown. Select "ProSieben" and press the OKButton.

A symbolized padlock will appear in front of the channel letting you know that it can only be watched when the right pincode is entered. Pagina 34 34 7. External eSATA Hard Disk Note All options described in this chapter are only available if you have connected an external SATA hard disk to the eSATA connector at the rear of your Dreambox DM500 HD. 7.1 Management If no OSD menu is visible on your screen, press the MenuButton to open the main OSD menu. Pagina 35 35 7.2 Recording 7.2.1 Instant recording Press the red OptionsButton. An ongoing recording is indicated by a flashing symbol in the Infobar see chapter 4.10. During a recording you can watch another service, view a previously recorded movie or add an additional recording. Pagina 36 36 7.2.2 Stop recording 7.2.3 Recording by timer With the help of a timer you can record shows. You are offered two different ways to program a timer, the manual way or via the EPG. If no OSD menu is visible on your screen, press the MenuButton to open the main OSD menu. Pagina 37 37 Manual programming Press the green OptionsButton to add a new timer. You can choose between two different timer types. "Record" to record the desired show or "Zap" to automatically switch to the service. As repeat type you can choose between "once" and "repeated". Pagina 38 38 Programming via EPG Change into one of the EPG views as described in chapter 5. By pressing the green OptionsButton you have the option to automatically add the selected show with its start and end time as a timer. All other options are the same as in the manually added timer. Pagina 39 39 In PVRMode the OptionsButtons are mapped as described below Green OptionsButton The PVRMode can be exited by pressing the TV Button. You will be asked if you want to stop the replay of the recording. If you choose "Yes" you will be taken back to the last channel you were watching. Pagina 41 41 7.5 Delete a recording Press the VideoButton to get to the selection of recordings.

<https://www.ziveknihy.sk/audiokniha/ducati-696-repair-manual>

Use the NavigationButtons up and down to select a recording. Press the MenuButton. 7.6 Movielist options To access the Movielist menu press the VideoButton and then the MenuButton. Press the TextButton to enter the Teletext. Keep in mind that not every station transmits Teletext. Teletext regular navigation If you are viewing any Teletext page you can enter the interactive mode by

pressing the OKButton. Timer status Set this option to "enabled" to activate a set sleep timer or to "disabled" to deactivate a set sleep timer. Pagina 46 46 10.2 Customize If no OSD menu is visible on your screen, press the MenuButton to open the main OSD menu. If you set this option to "No" you will be asked if you want to switch to the service which is supposed to be recorded. Set this option to "yes" if you have an A V Receiver that does not support Dolby Digital. General AC3 Delay Using this option you can set a delay for the AC3 signal. Pagina 50 50 10.5 Network If no OSD menu is visible on your screen, press the MenuButton to open the main OSD menu. Nameserver Enter the DNSServer's IP address of your LAN here. Pagina 52 52 10.6 Skin Selecting another skin will change the looks of your OSDOnScreenDisplay. If no OSD menu is visible on your screen, press the MenuButton to open the main OSD menu. Navigate to the option "Setup" and press the OKButton to select. Pagina 53 53 11. Service searching 11.1 DVBS2 Tuner configuration If no OSD menu is visible on your screen, press the MenuButton to open the main OSD menu. Navigate to the option "Setup" and press the OKButton to select. 1. Navigate to the option "Service searching" and press the OKButton. It does not matter if you use one or two dishes to achieve this. Make sure you know which satellite is connected to which input on the Tuner switch. If you do not find any services in the transponder scan later, exchange the two satellites in this list and try again. Pagina 56 56 11.1.

5 Stab Positioner using USALS Use this type of configuration if you want to receive many satellites with a Stab positioner from a Single Universal LNB. The coax cable is directly connected from your Dreambox to the LNB. Please read the section 11. Pagina 57 57 Navigate to the option "Use usals for this sat" and change the setting to "no" using the NavigationButtons left and right. Navigate to the option "Stored position" and enter position of the selected satellite which is saved in the positioner by using the Numeric Keypad. Pagina 58 58 11.3 Manual scan If no OSD menu is visible on your screen, press the MenuButton to open the main OSD menu. Navigate to the option "Setup" and press the OKButton to select. 1. Navigate to the option "Service searching" and press the OKButton. Pagina 59 59 12. Systeminformation 12.1 Service If no OSD menu is visible on your screen, press the MenuButton to open the main OSD menu. Navigate to the option "Information" and press the OKButton to select. 1. Navigate to the option "Service" and press the OKButton. Pagina 60 60 13. Installing new software How do I install new software on my Dreambox DM500 HD. Pagina 62 62 13. The new software is now being transferred to your Dreambox. 14. If the process was successful you will get a Box was flashed successfully message. 15. Click on OK and on Exit afterwards. 16. Disconnect and reconnect your Dreambox from power. Pagina 63 63 14. Troubleshooting Problem No audio, no video Beamlike blackouts in the video No reception on a channel that was working before Solution Check wiring and connections Realign dish Review settings see 11.
