Following these guidelines will help make this the best resource for heavy equipment on the net. Thanks for joining us and I hope you enjoy your stay!! I think it is the C Series as it has an International 4 Cylinder Diesel Engine in it. Looking forward to any responses. Harry I think they are out of Finksburg, MD. Good Luck!

Right now we are trying to find out the capacities chart so that we know what type of oils and fluids the machine takes as well as how much of each fluid. If anyone out there needs a manual for the TD7E let me know and I will try to get you a copy. Harry Did you happen to notice a manual for that in your search Thanks Would you be so kind as to send me a copy. The Sprocket Drive Each housing takes 10 qts. I might have some TD7 Brochures I can send in return. This will be my first dozer if I buy it. The manual would be very helpful. Since I am a brand new member I can't use the mail system yet so I don't know the best way. I plan on using the TD7G to keep my woods roads open in the winter for my tractor and winch. Hopefully it is up to this but I am not sure. Thanks Harry Love that tag. If anyone out there needs a manual for the TD7E let me know and I will try to get you a copy. Harry Click to expand. Make sure you understand the contents of this manual and use it to full effect at every opportunity. For ease of understanding, the manual is divided into the following chapters; these chapters are further divided into the each main group of components. It serves not only to give an understanding of the structure, but also serves as reference material for troubleshooting. Troubleshooting charts correlating "Problems" to "Causes" are also included in this section. It is accessible from the bottom of the dozer remove the rectangular roughly 10 x 12 cast iron plate. Unbolt and remove the strainer cover by prying with 2 large screwdrivers 5 round, held by 2 bolts and there's the strainer. Be prepared for the shower!!! Have a BIG pan ready to catch a few gallons of smelly fluid. I use an old galvanized tub. I just got a 1981 TD8E. 4000 hrs. oil analysis is real good. basically a tight, solid machine. BUT. it would hardly move when I started to road it up the mountain from delivery. I got my manual from Bates Corp. I think that the change came around 1984.

An easy way to tell is to look at the driveshaft between the engine and trans. If it is just a double knuckle, it is the early version. Two versions of manuals are available. I have a 1986 125E. I will start a new thread with all these questions soon. I love these machines and am hoping to slowly trade up to a somewhat newer one with a Carco winch and the Cummins engine. Is there a year range that is the most reliable in these machines. how were they in the 90s Just take out and clean and reinstall DO I have to drain fluid or will I just lose what is in container. I have only cleaned mine after I have drained the transmission oil. You might be flooded other wise. I don't really know. Check the oil level in the transmission box. If the filter is above the oil level and you are brave try cleaning it with out draining tank.. Wix has a good filter lookup site that is machine specific. They are all I use.
