For those who purchased a sewing machine used, it may not come with a manual. Not to worry, there are a number of ways to replace a lost or damaged manual. Sewing machine companies understand that machine manuals get lost and will usually assist in replacing an original manual for any sewing machine, even one inherited or bought at a yard sale. As a result, finding the right manual for a machine can be tricky for those who don't know exactly which make and model they have. This is especially true when it comes to older versions. The first step is finding the machine's manufacturer and model number. Most machines have a manufacturer's name somewhere on the machine. The model number may be on the back or bottom of the machine. For those who cannot find a model number anywhere, take a photo of the machine, and try emailing it to the manufacturer's customer service email address for help. Another option is to look at the official company website of your machine and review their database to find a match. Common sewing machine companies include Baby Lock, Bernina USA, Brother Company, Elna USA, Husquavarna Viking, Janome, Pfaff, Riccar, Singer, and White Sewing Machines. Shoppers Rule is a website that sells instruction manuals for more than 15 sewing machine brands.

If the manual is still in print, they'll receive an original; if not, they'll make a copy. In the rare case

that the manual isn't readily available, they'll try to locate one. Meanwhile, the other companies listed above typically have most of the manuals people are looking for on their own websites. If the machine is a popular model, chances are a PDF version will be available for free or minimal cost to print and download at home. No matter which option used to replace a specific manual, it shouldn't be too difficult if the machine was made in the last 100 years. If you have lost your manual or picked up an amazing sewing machine second hand that didn't come with a manual, you are going to need a replacement manual. If you are an experienced sewer you can guess how to use some of the functions but you will only get maximum productivity from your machine by knowing what all the bells and whistles do.
