Record the serial number in the space provided below. Refer to these numbers whenever you call upon your Sony dealer regarding this product. The data on this page includes a host of information on the images, including shutter speed, ISO setting, compression setting, etc. Rather than clutter the page below with all that detail, we're posting the thumbnail index so only those interested in the information need wade through it! Light shadows on Martis face become quite undersaturated. Probably OK for landscapes, etc, but not useful for photos of people. SlowSync mode results in a more even exposure, but a stronger warm cast. A bit more exposure compensation needed than average.

At ISO 200, the noise becomes visible onscreen and details soften somewhat, but the images shot there looked surprisingly good when printed as large as 8x10 inches. At ISO 400, the noise level jumps dramatically and more subject detail is lost. ISO 400 shots are rough even when printed as small as 5x7 inches, really shouldn't be considered for use with any larger than 4x6 inch prints. Daylight setting a little warm. Low setting takes unsharp masking in Photoshoptm very well try 250300% at 0.3 pixel radius, while High setting should work well for smaller size inkjet prints. It corresponds to a moderate wide angle to a very long telephoto. And the H1s optical image stabilization system means you can really take advantage of the telephoto end of its range. Daylight setting a bit warm. Flash has trouble up close though. Bright red swatch is quite oversaturated, yellow slightly undersaturated, but overall accuracy is much better than average. I include them here though, for our more analytically minded readers, who'd like to see the effect of various camera controls with a well known target like the MacBeth Color Checker tm. Noise was fairly low in most shots, becoming high at ISO 400, but even there it wasn't as bad as I'd expected to see. All in all, a good lowlight performer. Moderate to high chromatic aberration at both wide angle and telephoto. Excellent corner sharpness at all focal lengths. Slight flash falloff at wide angle.
