Can you help Anybody know how to resolve this problem Make sure that the wires are neatly bundled and clean cut when connecting them, a stray wire may be going under one of the connections from the battery input to the ground input of the amp, there for causing a direct short and blowing the fuse. I am assuming you mean that the amps fuse is blowing. Get yourself a test light and test the wires for power. Then make sure you have a very good ground, I always use the seat belt bolt or car seat bolt direct to chassis. If you checked all these steps with no luck then the culprit may be your amp. Login to post This is the manual for the TV Remote Audio setting Analog Out is set to "2 Channel" and the TV is turned to the Please do accept the solution if Thanks Rylee Press DVD menu on the lower left. Will need repair by experience tech. The four wires should be. Left white. Right black. The easiest way is to purchase some inexpensive RCA cables or better yet, speaker wire with RCA ends. Then connect the RCA plugs to your head units auxiliary input jacks. I can get some stations but not others, such as radio 1,3,4, but not 2. Answer questions, earn points and help others. However, you may print out one copy for personal, noncommercial use. The contents of the product manuals are subject to change without notice when there are changes in the product's specifications or in regulations and may differ from the product or product manual you own.

If there are differences in the specifications of the product you own and the product manual on this site, or if you have questions regarding the contents of this site, please contact Customer Service. However, the product manuals on this site are not updated with every revision of product manuals that come with the products. If you are unable to find the product manual you are looking for, please contact Customer Service and purchase it. There may be cases where the applicable product manual cannot be purchased due to cessation of production or other reasons. In some cases Clarion may not be able to answer questions regarding these product manuals from those who have not purchased the products. If your computer does not have this software, you can download the appropriate version for your PC from Adobe's website by clicking on the icon. Then release the key immediately. Press the key until it flashes twice and then remains lit. The DVD key will now allow you to operate your second TV. Program the SRU 5130 to operate the second TV. If you have any questions about the SRU 5130, you can always contact us. You will find our contact details after the code list at the back of this manual. Read this manual carefully before you make a call. You can solve most of the problems yourself. Il tasto DVD consentira quindi di far funzionare il secondo televisore. In questo modo e possibile risolvere autonomamente la maggior parte dei problemi. Se utilizan en modo de texto y en algunas pantallas de visualizacion. MENU activa y desactiva el menu. Botones de cursor mueve el cursor arriba, abajo, a la izquierda o a la derecha en un menu. Puede seleccionar el dispositivo que desee controlar con los botones TV, STB y DVD. Ahora podra controlar un segundo televisor con el boton DVD. Programe el SRU 5130 para funcionar con el segundo televisor. Puede solucionar la mayoria de los problemas usted mismo.

Si no encuentra respuesta a sus problemas, escriba los datos de su dispositivo en la lista de codigos que hay detras de este manual. Uma vez que o SRU 5130 pode utilizar sinais diferentes para cada marca ou mesmo modelos diferentes da mesma marca, recomendamos que teste se o seu dispositivo responde ao SRU 5130. Tente programar novamente o SRU 5130. Se o dispositivo continuar a nao responder, contacte a nossa linha de assistencia. If it doesnt, restart the download. The selected item will be added to your shopping cart. Click the "Shopping cart" link at the top right of every page to visit your cart and adjust amounts or remove items.

You can also continue shopping and return to your cart later. When you're ready to check out, click "Next" in your shopping cart. Your invoice address and other information will be automatically filled in for you. On the next page, select your desired payment method. See our payment options page for more information about your choices. If you plan to pay by credit card, you'll be asked to enter your card details here. Step 4 On the final page, you can review your order one last time and read our terms and conditions before you confirm your order. When you're ready, click "Place your order". After you've placed your order, you will be redirected over a secure Internet connection to our payment service providers, where you will be guided through the final steps to complete your order. After your payment is processed, you will be redirected back to Safescan.com. We will start processing your order and will send you an order confirmation email. To help you plan your order, we use a set of simple status symbols to indicate an item's realtime stock level. You can preorder the item, and as soon as it arrives at our warehouse, we'll ship it to you. In addition to speeding up checkout, an account offers you the following benefits Order tracking and history You can log in to your Safescan account at any time by clicking the "My account" link at the top of every page. All your account information is automatically encrypted and sent over a secure connection. To update your account information, log in to your Safescan account at any time. To access your account, wait 30 minutes and try again, or use the "Forgot your password" option to reset your password. If you've forgotten your password, click here or on the link on the login screen. Enter your email address and we'll send you a link you can use to reset your password. If any items are out of stock, we'll hold your order until they arrive, then ship all your items together.

That way, we make sure you get your products as quickly as possible. We can do one of three things for you If you'd like to cancel an order that hasn't shipped yet, please contact us. UPS will then return the order to us, at which point we can cancel it and issue you a refund. As a Dutch company Safescan is obliged to charge a standard VAT rate on all our orders. However, if your company is based in Europe and has a legitimate VAT number, you may be exempted from the additional VAT charge. Your VAT number will immediately be checked by the VIES Validation Service If your VAT number is valid you can complete your order without being charged the VAT amount. If the supplied VAT number is invalid, an email will be sent to you with the request to either correct the provided number or pay the outstanding VAT amount. Something small like a simple typo could make your VAT number appear as invalid. Please check if you have entered all the digits correctly. 2. The provided VAT number is not valid for transactions between different EU countries. Some European countries such as Italy and Spain require an extra registration to activate the VAT number for international transactions within the EU. Please consult your local authorities to see if your VAT number is valid for crossborder EU transactions. If your VAT number has to be activated please wait until the number is processed to complete your order. If you require more information about the European VAT ruling, please visit In addition to the copy of your invoice we send you by email, we will add a copy to your shipment for customs use. Basically a change of a VAT number means a change of a business entity. If you create an account on the Safescan website and your purchases are of a corporate nature, please ensure that you register your account with your correct VAT number. Subsequent changes are no longer possible, as your account is linked to the VAT number

you entered during your registration.

A change in your VAT number is a change in your business entity, resulting in a change of your account on the Safescan website. After you enter your information, we will communicate with your creditcard issuer to process your payment smoothly and securely. PayPal securely stores your credit card and banking information, enabling you to pay online without entering your sensitive financial information every time you shop. Using Paypal you can speed through the checkout process in just a few clicks. PayPal deducts payment directly from your credit card or bank account, and your payment information is never shared on the Internet. Enter your debit card number and expiration date and you will be automatically taken to the bank's secure website, where you will be asked to verify the amount and pay using your usual authentication medium. If you aren't sure, ask your bank. Maestro payments over the Internet are protected by an authentication medium. Depending on the bank, this may be a card reader, a password, or something else. Contact your bank if you don't yet have an authentication medium. To make payments over the Internet using your Maestro card, you must have a SecureCode. If you don't have one, contact your bank. A modest surcharge will be added to your order to cover the carrier's additional fee. The email order confirmation we send you will contain your order number; please refer to this number when you make payment, so we can link your payment to the correct order. To protect your information during the ordering process, we use Secure Sockets Layer SSL. SSL is the industry standard protocol for establishing a secure connection between computers on the Internet. The protocol encrypts all traffic and guarantees message integrity and sender and receiver authenticity. You can click on the lock icon or green button in your browser's address bar to view the details of the SSL certificate, including its validity.

We meet or exceed the key PCI DSS requirements We work hard to keep our shipping rates as low as possible, without surcharges for delivery to remote areas. In some countries, shipping and returning of your order is free of charge. Please see the table of shipping rates. To ensure the fast, accurate delivery of your order, we use the reliable services of UPS. The cart will calculate and display your shipping costs so you can review them before you complete your order. These costs are also displayed in the confirmation email we send you after you place an order, and in your online order status. This surcharge, which is visible in your shopping cart once you select your payment method, is calculated and displayed separately and is not part of your shipping costs. Orders placed on weekends and public holidays will be processed the next working day. During busier periods it is possible that your order cannot be processed the same day. Your order will be processed and shipped as soon as possible. To trace your package's status in real time, visit [www.ups.com](http://www.ups.com) and enter your tracking number on the left side of the page. UPS delivers between 800 and 1800 Monday to Friday, excluding public holidays. During this time, you can return an item purchased from our online store for a full refund, without stating a reason. Please note that certain limitations apply to this guarantee; we encourage you to familiarise yourself with these requirements prior to delivery. If you paid with a credit card, the refund will be credited to your card. If you choose to have UPS pick up your return shipment, please note that the cost will be deducted from your total refund. If a product you've purchased becomes defective within 7 days of receipt, we will send you a new one, completely free of charge. Simply notify us within the 7day period, and after approval, submit a return request through your Safescan account at [Safescan.com](http://Safescan.com).

We will pick up the defective product and deliver a new one at no cost to you. Items returned without their original packaging cannot be accepted for DOA; they will be sent for repair under warranty instead. Complete the form to submit your request. These instructions will include your return label and unique RMA return number. Please wait for these instructions before returning your product to us; without both the return label and RMA number, we cannot accept your return. If you're returning an item for any other reason, such as under the 14day moneyback guarantee or for repair, please note that you are responsible for paying the costs of return shipment. If you would like

to use this service, please select it when you submit your return request through your Safescan account at Safescan.com. You will receive clear instructions on payment if applicable and pickup. Maximize your value by registering your product. Registration has the following benefits Free software updates and product information Enter the purchase date, invoice number, model number, and serial number for your product. The extended warranty begins on the date of purchase. Our inhouse repair department will professionally repair your product, in the shortest possible time. If your product becomes defective within the warranty period, we will repair it free of charge. If the item is no longer under warranty, we will provide a noobligation quote for repairs. Please note that you will need to pay the cost of shipping the item to us. Complete the form to submit your request. These instructions will include your return label and unique RMA return number. Please wait for these instructions before returning your product to us; without both the return label and RMA number, we cannot accept your return. If you would like to use this service, please select it when you fill out the return form. You will receive clear instructions on payment and pickup.

Please contact our customer service department to request a copy of the CE Declaration of Conformity DoC for any product. As part of this commitment, we embrace the WEEE European Directive. WEEE stands for Waste Electrical and Electronic Equipment. In line with WEEE objectives, our design process for each new product includes the following considerations durability and long product life For example, the WEEE Directive became UK legislation in January 2007. Our entire organisation worked hard to fulfill the requirements We ensured that all new products carry the appropriate WEEE marking. Please download the free TeamViewer remote support software. We also recommend looking through our discussion forum which serves to answer questions and solve problems with first light video products. These lessons. Manual and User Guide for many equipments like mobile phones, photo cameras, motherboard, monitors, software, tv, dvd, and others. Its energyefficient design supports more cores, memory, and data capacity in a scalable Tower or 5U Rack package that is easy to service and manage. This guide is intended for technical specialists, sales specialists, sales engineers, IT architects, and other IT professionals who want to learn more about the x3500 M5 and consider its use in IT solutions. Its energyefficient design supports more cores, memory, and data capacity in a scalable Tower or 5U Rack package that is easy to service and manage. With more computing power per watt and the latest Intel Xeon E52600 v3 processors, you can reduce costs while maintaining speed and availability. Comprehensive systems management tools with the nextgeneration Integrated Management Module II make it easy to deploy, integrate, service, and manage. Start with the basics and upgrade as your business changes without jeopardizing existing investments. Virtualizing the PC infrastructure into one server can provide access to a powerful server with abundant storage space, while significantly reducing IT costs. This feature simplifies servicing, speeds up problem resolution, and helps improve system availability. Alerts can be surfaced through the system IMM to managers such as Lenovo XClarity Administrator, VMware vCenter, and Microsoft System Center. These

proactive alerts let you take appropriate actions in advance of possible failure, thereby increasing server uptime and application availability. Optional service upgrades available. Energy Star 2.1 certified. Hexagonal holes can be grouped more densely than round holes, which provides more efficient airflow through the system. Up to 45 MB L3 cache. RDIMMs and LRDIMMs are supported. Memory types cannot be intermixed. Memory speed up to 2133 MHz. Optional upgrade to RAID 5, 50 is available for M1215.

Optional upgrade to RAID 5, 50 is available for M5210 zerocache; 1 GB nonbacked cache; 1 GB, 2 GB or 4 GB flashbacked cache. Optional upgrade to RAID 6, 60 is available for M5210 with memory cache upgrades. Supports DVDROM or Multiburner. Support for one RDX internal USB tape drive. All slots are PCIe 3.0 slotsOptional SD Media Adapter. Optional IMM Advanced Upgrade software feature for remote presence. See the Operating system support section for specifics. Order the CMA separately by using part number 00KC334. It must be purchased separately. The server supports up to two processors. This table shows which server models feature each processor as standard. If there is no corresponding whereused model for a particular processor, this processor is available through CTO only. TruDDR Memory uses the highest quality components that are sourced from Tier 1 DRAM suppliers and only memory that meets our strict requirements is selected. It is compatibility tested and tuned on every System x server to maximize performance and reliability. TruDDR4 Memory has a unique signature programmed into the DIMM that enables System x servers to verify whether the installed memory is qualified or supported. Because TruDDR4 Memory is authenticated, certain extended memory performance features can be enabled to extend performance over industry standards. From a service and support standpoint, System x memory automatically assumes the systems warranty, and service and support provided worldwide. Each processor has four memory channels; there are three DIMMs per channel. Both DIMMs in a pair must be identical in type and size. In rank sparing mode, one rank of a DIMM in each populated channel is reserved as spare memory. The size of a rank varies, depending on the DIMMs installed. Only one operational memory mode can be enabled on a server, and it is a systemwide setting. Standard models ship with one 8x 2.5inch hotswap backplane or one 6x 3.5inch hotswap backplane, as listed.
