From time to time, it may become necessary to reset a BlackBerry device. This can be done in several ways. A soft reset can be initiated by a keyboard command and simply restarts the phone; a hard reset requires physical removal of the battery. Battery Cover Access Turn the BlackBerry over and press the battery release latch. BlackBerry models may differ slightly so refer to your operating guide if you have difficulty locating the latch. Pull off the battery cover once the latch has been released. Battery Reset Grip the battery by the sides using two fingers and lift it up and out of the BlackBerry. Wait 30 seconds and then reinsert the battery into its compartment. Replace the battery cover by pressing it back into place. The operating system will perform a complete reboot.
