Brookstone offers one universal TV remote called the Flik Universal Remote. This remote control can be programmed to control up to six separate electronic devices. If you own a Brookstone universal TV remote, you'll certainly want to know how to program the remote to work with your various devices. This illuminates the LED icon located at the top of the remote control. This performs a quick search for the devices code. If the device didn't turn off, repeat steps 5 and 6 until it turns off. Unzip the Page 8 and 9 7 If your code is not available in Page 10 and 11 9 codereading Mode You can test yo Page 12 and 13 11 operaTinG The reMoTe 1. Press a Page 14 and 15 13 one 1 year liMiTed WarranTy Br Page 17 and 18 TABLE OF CONTENTS TV Codes. Thank you, for helping us keep this platform clean. The editors will have a look at it as soon as possible. With large buttons its easy to read the buttons and operate with out unintended issues. A jumbo universal remote control extends 11 inches long and 5 inches wide. This remote is a great solution to anyone suffering from bad eyesight, disappearing remotes, and people with just too many devices to control. Scroll down for Remote Codes. Instructions for Programming the Remote There are two ways to program your remote. If you already know the code for your device, you can program it into your remote manually. If you do not know the code, you can use the code search function to program the remote control. The light on the remote control will blink and stay on. 5. Slowly press and release the power button repeatedly until the device turns off. Program a Manual Code 1. First turn on the device that you

want to program such as your TV or DVD player. 2. Point your remote control at the device. 3. Press the button on the remote that corresponds to the device. The light will blink each time you push a button. If the code works, the light will turn off. If the light flashes, that means the code did not work.<http://zavalasministorage.com/assets/media/cummins-onan-service-manual.xml>

There may be multiple codes for a device. If a code does not work, start from the beginning by holding down code search until the light stays on and use a new code. 6. Press the power button to test if your device turns off. If it does not turn off, repeat the process with a new code. Retrieving the Code for your Device If you used the code search function to program your device and want to know the code for future reference, you can retrieve the code from the remote. To do this 1. Press and hold the Code Search for 3 seconds until the light stays on. 2. Press the device button for the code you want to retrieve. Press TV to get the TV code, etc. The light will blink once and stay on. 3. Press the number buttons from 0 to 9. When the light blinks once, that signals the first number of the code. 4. Repeat for the 2nd and 3rd digits of the code. The light will turn off after you retrieve the 3rd digit. The light will turn off and start timing. 3. Make sure the remote is pointing at your device. 4. To cancel the sleep timer, press the power button once or hold down the sleep button until the light flashes once. PleTh.
