Canon brand peripheral equipment and software which may be distributed with, or factory loaded on, the Equipment, are sold AS IS without warranty of any kind by Canon USA, including any implied warranty regarding merchantability or fitness for a particular purpose. The sole warranty with respect to such nonCanon brand items is given by the manufacturer or producer thereof. If the Equipment contains a hard disk drive, Canon USA recommends that data stored on that drive be duplicated or backed up to prevent its loss in the event of failure or other malfunction of such drive. Canon USA shall have no responsibility under this limited warranty for use of the Equipment in conjunction with incompatible peripheral equipment and incompatible software. In order to obtain warranty service, contact the authorized Canon retail dealer from whom you purchased the Equipment or call the CANON INFORMATION CENTER AT 1800OKCANON. You will be directed to the nearest service facility for your Equipment. This Limited Warranty covers all defects encountered in normal use of the Equipment and does not apply in the following cases This warranty does not cover units sold to rental firms, military operations, hotels, schools, hospitals or for other commercial, industrial, or institutional applications. These uses are covered only by such specific warranty as Canon may issue with such sales. This Limited Warranty does not apply to accessories or consumables for the Equipment, which are sold "AS IS", without warranty of any kind by Canon USA. Please retain this warranty card and your Bill of Sale as a permanent record of your purchase. This card is most important in order to be sure you are contacted right away should there be a safety inspection, modification or product recall under applicable laws or regulations. Scroll down to easily select items to add to your shopping cart for a faster, easier checkout. Visit the Canon Online Store It plugs directly into a power outlet without a cable. <http://ashrayacharity.org/userfiles/dry-support-bridge-manual.xml>

This case can be conveniently carried by hand or via the comfortable shoulder strap, providing convenient handsfree protection. With a CarePAK PLUS, a damaged product will be repaired to good working condition or replaced with an equivalent product. These easy-to-use MiniDV camcorders feature Genuine Canon Optics in an affordable yet ultracompact and sleek design that will deliver the high level of performance you've come to expect from Canon. Canon ZR950 Highlights Genuine Canon 48x Advanced Zoom Now you can capture true widescreen 16:9 video with stunning image quality from any distance all the way up to 48x. Canon's exclusive Advanced Zoom system combines Genuine Canon Optics with Canon's proprietary DIGIC DV Image Processor to let you seamlessly zoom both wide and long, retaining optical quality throughout the zoom range. 1.07 megapixel CCD image sensor Whether you're shooting video or photos, you will benefit from the camcorder's razor-sharp CCD Image Sensor. Quick Start Instead of powering off your camcorder between shots, simply press the Quick Start function to put the camcorder in standby mode.

<https://www.dermatina100.gr/images/burrell-wrist-action-shaker-model-75-manual.pdf>

Quick Start considerably reduces the power consumption of the battery and allows the user to return to recording mode in less than a second, so you'll never have to miss another special moment. Widescreen HR recording The ZR950 records true widescreen for picture perfect video. Canon's image processing system uses the entire width of the image sensor, capturing a big picture in true 16:9 widescreen so no one and nothing is left unseen. And Canon camcorders take advantage of more pixels to give you amazing quality. 2.7-inch widescreen LCD A widescreen LCD lets you see exactly what your camcorder is recording, and what your TV will display later. Image stabilizer Shoot rocksteady video even when you're at maximum telephoto without a tripod. It is even effective while panning or zooming. LCD video light Shooting in low light situations has never been easier with Canon's New LCD video light. The next time you are using your ZR950 in a dimly lit room, simply flip over the LCD screen to face your subject and activate the video light function. A soft light emanating from your LCD illuminates the area in which you are shooting, allowing you to get high quality video even in less than ideal lighting conditions. Joystick The joystick makes using the camcorder easier than ever. You can control playback, focusing, exposure, and menu options from one convenient place. Multiangle wireless remote Canon gives you even more control and versatility by mounting the remote control sensor on the ZR950's LCD screen. Now you can activate numerous camcorder functions, when using the remote control, from any angle that the LCD turns. DIGIC DV image processor Video and photos require different image processing. Unlike other manufacturers, this results in video and photos with exceptional color and clarity. Smooth zoom control With this innovative feature, you can always be sure of smooth, steady, professional looking zoom shots. Simply select one of three preset zoom speeds.

You can also select variable so you can control the speed manually. Level Shot and Grid Markers It's easy to keep your ZR950 level for more professional looking video. Simply press the Level Shot Control button, and a horizontal marker appears in your viewfinder. Then line up any horizontal lines in your shot to the marker and you know your camcorder is level. The Grid marker is also very convenient for setting up the special balance in your shots. And since background colors vary, you can select from two line colors to make the lines easily visible. Built-in lens cover A built-in lens cover gives you the ability to protect your Canon video lens without ever having the inconvenience of a dangling lens cap that's easily lost. Still image recording Capture stunning photos in 4:3 aspect ratio to an SDHC card. Advanced Photo Features A variety of features allow you to capture great photos. 9-Point AiAF Bring off-center subjects into sharp focus. Histogram display With just one push of a button, the brightness information of a still image is revealed. This allows you to monitor image quality, so you can make adjustments to improve the next shots. Image Effects Choose from the following effects to add a creative flare to your photos: Vivid, Neutral, Low Sharpening, and Soft Skin Detail. Special Scene Modes A wide selection of automatic exposure modes makes it easy to capture great video or photos under any condition. Choose from Portrait, Sports, Night, Snow, Beach, Sunset, Spotlight, or Fireworks. SDHC memory card slot Capture your photos and short movie clips directly to either a standard SD card or a high-capacity SDHC card. This allows you to use cards with

a capacity of 2GB or larger. Photo Features A variety of features allow you to capture great photos. 9 Point AiAF Bring offcenter subjects into sharp focus. Progressive Photo Reduces blurring so you get crisp photos.

Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzes reviews to verify trustworthiness. Please try again later. BR 5.0 out of 5 stars I used the camera on vacation in Oregon and Indiana. Its sound is great, its zoom is amazing. I have no regrets over the purchase. I did need some help connecting it, and called their 800 number, and they were equally helpful also a pleasant surprise. I realize the markets are constantly changing in terms of technology. But for this camera, it will last me for years assuming it lasts for years. But its really nice, and Ive already made several DVDs with it. Now Id like to upgrade my Mac. Not sure this product came with a good battery. I think it was an old one, i.e. original that sat for a long time. Will probably have to buy a new battery in short order.

Would also liked to have received the manual with the product, as well as a box. Got neither. This camera looks just about the same as my tenyearold video camera. i.e. exact same model that I bought brandnew in 2009. Not a huge problem unless you watch recorded video on a BIG screen. The dot was the size of a pencil eraser. Canon paid for shipping both ways and repaired it perfectly. no questions asked or money for that matter. And it was done within 10 days. By the way this camera takes great pictures on an SD card uses USB to transfer. Takes grate video on a miniDV tape yes tape. The video is transferred via firewire. I LOVE THIS CAMERA. Canon is wonderful to work with. The camcorder works perfectly. The price was extremely reasonable. I especially like the fact that the seller was willing to give a 30 day guarantee. Love it, great zoom and awesome sound and picture quality, easy to use and great price! This camera works well very happy with it. Something went wrong. View cart for details.
