At its next period, he played a fundamental role of leadership in the establishment of the first corporate company in India in Career counseling in Mumbai. After that, he worked on higher education administration and marketing functions and has successfully worked on the establishment of new institutions, launching new academic programs and educational marketing. In his last period with a career education organization in Australia and India, he led a global team that has built a multidimensional knowledge base for professional education and It was part of the leadership team that launched several products and services for professional education in India. At your leisure, Dipankar likes to read books on different subjects, including fiction. CBSE performs board examinations for class students 12 every year. CBSE Class 12 annual exams are very crucial for students. It is a decisive factor for choosing the best career options. So, students try best to perform better on classroom exams. We know that CBSE leads the exams for 70 or 80 marks only and the rest of 20 or 30 brands is given against practical examinations or internal evaluation. Here is the table showing CBSE Class XII exam marks and practical or internal valuation marks. 80 20 Geography 70 30 Economy 80 20 Musica 30 50 + 20 Psychology 70 30 Sociology 80 20 Matemotics 80 20 Business Studies 80 20 Domestic Science 70 30 Question Design From the papelo to guarantee the sinkability in the evaluation in the examination of the Council, the detailed drawing of the article is not included in the curricular document. The details of the Q.p drawing will be subsequently notified with the sample question document. However, the examination of the Council shall test according to the weighing allocated to each area or unit given in their subject. Elective areas Languages include Hindi, English and another 30 languages. Longuous curricles focus on listening, speaking, reading and writing skills for the development of effective communicative proficiency. Students use language to understand, acquire and communicate ideas. Humanities and Social Science - Geography, History, Economics, House Science, Sociology, Fine Arts, Politics and Related Subjects promote the learning of history and culture, geographical environment, global institutions, constitutional values and regulations, policies, Economy, interpersonal and societal interactions, civic responsibilities and the interaction of all these. Students appreciate and value the right of all humans to feel respected and safe, and in this regard, also understand their fundamental rights and duties and behave with responsibility. Students learn to be tolerant and empty for others through the study of these issues. Science: Biology, Chemistry, Physics, Computer Science and Informatics Help make perceptual students on matter and energy, nature, environment, technological advances in science. The focus is on knowledge and skills to develop a scientific attitude and use and apply this knowledge to improve the quality of life. The curriculum the ability to engage with issues related to science, and with the ideas of science, as a reflexive citizen, being able to explain the phenomena scientifically, scientifically, and design 4 scientific investigations and interpret data and evidence scientifically. Students understand the importance of applying scientific knowledge in the context of real-life situations and gain competencies that allow them to participate effectively and productively in life. Mathematica includes acquiring concepts related to numbers, operations, computation, measurement, geometry, probability and statistics, the ability to calculate and organize and the ability to apply this knowledge and skills acquired in your daily life. It also includes a understanding of the principles of reasoning and solving problems. Students identify, integrate and apply concepts and numerous and spatial temporary. They have clarity of concepts and are capable of connecting them to the real world. Students rationalize and reasons about arrangements, standards and related relationships, in order to understand, decode, validate and develop relevant patterns. Business Electives and Commentary - Commercial Studies, Accounting, Entrepreneurship, Economics and Related Affairs Help get understanding of the main disciplines of business. They understand the concept as the exchange of value items or products between people or companies and the meaning / relevance / significance of any exchange of money for a product, service or information. Visual, Enhancement and Creativity - Subjects such as dance, drama, music, patrimony crafts, beautiful arts, sculpture and related subjects aim to help students cultivate interest and assessment of the arts and encourage them to participate with enthusiasm in related activities, thus promoting the skills such as imagination, creativity, arts of value and cultural patrimony. Elective skills help in the development of professional competencies, which are analytical, applied and based on results. Going by skill training in schools can help students learn about a progressively to create a product and also become problematic solvers in real life. 5 Currently, many skill elements are being offered by the council in the hospitality and tourism areas, emerging technology such as artificial intelligence, geospatial technology, finance, business and retail and safe, etc. Students can also choose subjects from diverse areas, such as fashion design, agriculture, banking, mass media health and many more students. Saúde and Fansical Education focus on the holipic development, both mentally and physically, understanding the importance of physical fitness, health, well-being and factors that contribute to them. The focus of this area is helping to help students develop a positive attitude and commitment to realistic, healthy active life and the ability to live satisfactory, productive lives with the help of health management, indigenous sports , Yoga, NCC, self-defense, fitness and lifestyle choices. These learning areas should be integrated with each other in terms of knowledge, skills (life and subsistence), understanding, values and attitudes. Students should have opportunities to think laterally, critically, identify opportunities, challenge their potential and be open to challenges. Students value and involve practices that promote fansical, cognitive, emotional and social and well-being development. This allows students to connect different areas of knowledge, applications and values with their own lives and the world around them. The holistic nature of human learning and knowledge must be brought throughout. General studies: The objective of guiding students for general studies is to develop in them an assessment of the holistic nature of knowledge. In contemporary times, familiarity with general studies is indispensable because in the senior school stage there is an element of specialization because students are not exposed to some disciplines / Study areas that are not covered in your specialized field. Documents with health details and fansical education and general studies are At www.cbseacademic.nic.in CBSE class 12 previous question year papers with solution in pdf file. Here you can download the class 12th in the last 10 years Papés asks for all matters, including All India and Delhi Council. Papers anterior year are a great help for preparation for the exam exam. Warm welcome to all students of the science, ITA is great to have it here. Choosing the stream of science was one of the important decisions of your life. When you decided to choose science about other flows, at that moment you shaped your life in a whole new way. Now to help you with your decision, in this article we have Givenã, CBSE 12 previous science papers asks all disciplines. CBSE 12 of Fansica Previous Year Papers CBSE 12 Chemistry Previous Year Papers Question CBSE 12 Maths Previous Year Papers Question CBSE 12 English Question Papers CBSE 12 Computer Science Previous Year Password File Question Paper PDF: 4ono.com PDF Password Archive: 4ono.com Previous Year Papers Issues It is important to go with previous year papers can be used as weapons for the maple exams. There are some questions that are often repeated in different ways in all the examinations of the board, and if you can identify these questions, then you can mark much more. So, keep looking for questions that you think are being repeated in most of the papers and make sure you practicing them the best way as possible. Check what strict is the CBSE evaluation process to know the ability to write answers according to the examiner to get the best of each response. A large number of students appears and enrolled in CBSE examination 12th advice, I'm talking about a huge population of students and just think you're one of them. So, what makes you different from others and in what way? Ok, let me give this answer to you, first of all you should know that only 20% of students are there that they are really preparing for the council exams and the remaining 80% of the students do not They had ideas that where they are going and what they are doing. Now does the question arise that what this 20% of students are really doing and how are they doing it? So let me give you some points that the high scoring students do as they prepare for the exam. Complete NCTERT BOOKS FIRST! You have already noticed that the good markers of your class always stay with Thean, NCTERT Book, and the only reason that NCTER will give you the exact information about the curriculum and reading the text. But if you do not have enough time, then choose the NCTER book is not a good idea, because the Book of NCTER will not drive it in shorter time. Therefore, it is advisable that you should look around for time, remaining for the exams. NCTERT is not good friend, reading NCTERT's workbooks is really a very good idea and an intelligent student can easily understand that what I mean here. But, my dear friend reading NCTERT is not enough in the case of NCTERT's book you will not find the kind of questions and deep study about any topic. NCTERT only gives the basic idea about the important topics for the examinations of your advice and not the in-depth study of the topics. So, according to my first point, you must complete your NCTERT book first, to get the idea of the topics, and then you should go to some reference books from CBSE 12th PCM. And please do not go to those heavy books à €
