

**Reometria del hule**

I'm not robot  reCAPTCHA

**Next**

**REOMETRIA**  
**METODO ASTM D - 2004**

- Las propiedades de un elastómero se miden al aplicar un esfuerzo constante, el cual mide la respuesta mecánica de un compuesto de hule a un esfuerzo oscilante como función del tiempo a una temperatura dada de curado.
- La curva resultante (reometría) proporciona información muy valiosa sobre las propiedades de procesamiento y curado de un compuesto de hule.

**Los que sean más flexibles, con menos grupos voluminosos o con heteroátomos en sus cadenas, podrán girar y permanecer flexibles a temperaturas menores que los otros.** Por ejemplo, los silicónes, el polietileno y el hule natural, tienen temperaturas de transición vítrea de  $-123^{\circ}\text{C}$ ,  $-120^{\circ}\text{C}$ ,  $-73^{\circ}\text{C}$ , respectivamente. En cambio, polímeros con grupos grandes o grupos muy polares o polarizables, tienen de por sí tan baja movilidad molecular que son vítreos a la temperatura ambiente y para reblandecerlos se requieren altas temperaturas.

February 26, 2016 By Anonymous116191050 I visited this facility Casa Del Rio was OK with very nice rooms, but the room was not appropriate for me because I use a power wheelchair that would not fit through the doorway into the bedroom. Provider Response Thank you for visiting Casa Del Rio. Our beautiful property offers four floor plans with many options to choose from. For example, some of our apartments offer open patios, while others offer additional living spaces. Most of our apartments have standard doorways while others are wheelchair assessable and have wider doorways, wheel in showers, and lower light switch placement. These wheelchair assessable units are very popular. We have a wheelchair assessable apartment available to rent this month. Please call the leasing office if you would like to view it. January 24, 2016 By Gayle211 I visited this facility Casa Del Rio just offered more than other facilities. I would say more bang for the buck, more for less. The apartment that I am getting is beautiful. The environment is very nice. The staff who assisted me were unbelievable, genuinely nice, went out of their way to tell me everything. The food at this facility looks good. Provider Response Thank you for such wonderful comments about Casa Del Rio. We are proud of our community and are pleased that we are able to offer many amenities and services as part of our basic rent. Wireless Internet, cable television service, housekeeping, in addition to meals in our beautiful dining room and transportation are only a few of our inclusive amenities. Our freshly renovated apartments are inviting and comfortable. Casa Del Rio is our residents home and our staff are honored to be of service to our residents. Welcome home!
