Hunting guide lords mobile

(I am aware that these need to update. I am in the testing process. Thanks for your patience!) T's Ultimate Darknest Rally Guide Vitória on a darkness is not just about how many troops you send. It is about which troops and for what. Of course, you may be able to win it just playing a ton of troops, but you will end up with more injured than the need. Why the dark businesses? It is basically free serve. Random, but you do not have to do much for this, besides holding the rally properly and heals some troops. The troops sent to a darkness will never die unless you have no space in your infirmary. There are 5 essence notes just like gear and herois and ... well, pretty much everything. The note rises with the dark levels. Navel Nests 1 Common to you through Navel nests 5 giving you legend. Theoretically, the greater the essence, the better the serve. I say theoretically because sometimes you are a kitchen one for 12 hours and still get something useless for you and other times you do a common and get something that you need from Hephbot Hephbot is a bot for Lords Mobile Help on the line of free messaging applications. This incredible tool is available as a line friend. Once you are a friend, just enter help and this will give you the menu for options. Any word marked with an à à € € is a keyword. Typing a keyword as a chat message will give you an answer. Sometimes a new menu, sometimes a photo, sometimes an explanation or link. There are many guides (some of which are here). And it's always online answer your questions. They are in the process of adding new contents all the time. If you enter a keyword that does not receive an answer - sorry! It's on the list of doing. They are working as fast as possible to generate and add new contents and appreciate your patience. To add Hephbot as your friend, look for the ID @ mks7977e line make sure you include the @ symbol - is part of the ID. Once you are friend, you can use it for one in a conversation or this bot may be one of the most iconic lords mobile activities is the monster hunt. For those who are familiar with the activity, the monster hunt is a guild activity that allows the player to hunt monsters to acquire several rewards. Anyone regardless of level can join this activity. The whole player needs to do is to participate in a guild to participate. Now, if you are a new Mobile Player Lords, then you are lucky as today, let's give a general vision of the basic, rewards and mechanical elements of the monster hunt.Preparing for the First thing you should seek if you want to participate in the monster hunt is a solid guild. Having a trusted guild with active members will be benese not only in the hunt of the monster, but in their general progression. Take note, however, that joining a strong guild does not mean that the monster hunt is a walk in the park. Instead, it means that you are part of a community that you also have to participate actively. After all, no one likes a freeloader.moving forward, the first thing you need to do to make your monster hunt is to make your herois stronger. Choose your best hergs to form a hunt party because you can only send a single group. Then choose the right type of hero, use the monster hunt gear, upgrade the Monster Hunt Academy, join your guild and make a lookout for thieves. Once you have all the above mentioned elements discovered, then you are ready for a Hunt.Lords Monsters Monsters Venitoria, another important thing you need to remember is that all monsters in the game come with your own attributes and unique levels. In addition, there are five levels of monsters in the game with 5 being the highest. 5 monsters always generate the base Kingdom. Lower level monsters, on the other hand, spawning at random locations throughout the map. Check out some examples of the featured monsters in the game.Blackwingour first example is the two-headed Blackwing dragon. This is this inflicts magic damage and is strong against high mdef. One of the most emblematic attributes of this monster is its insatiable blood headquarters. This means that he targets the hero with the largest HP. This monster also comes with a squamous thick skin that protects from strong magical attacks. In addition, your fangs can nullify all effects of life leaching. Gross physical force is the weakness of this monster which means that you need to choose your herois wisely to ensure victory. One image Source: Mobile Lords Monster Hunt Guidetidal Titanine contrast with our first monster, inflict Tidal Titan devastating physical damage and is strong against high pDEF. As mentioned earlier, this monster causes huge damage to their herois and comes with very thick skin to protect themselves from physical attacks. A source image: Mobile Lords Monster Hunt Guideã, you need to overthrow this monster with your strongest hergs wielding magic support for your best healers. An example line-up that can knock down this monster is composed of the incinerator, snow queen, elementalist, Prima Donna, and Light.Frostwingour third and last example is the dragon wing greeting. Similar to our first example, this monster focuses on the hero with the largest HP. What makes wing greeting more challenging to overthrow comes from the only capacity that allows you to inflict both physical and magical damage. This monster also comes with a powerful ice attack that the area inflicts Damage.to knock down this monster, you need to send your herois that have the ability to cover behind this monster. Killing this monster will provide you with the materials you need for the construction of gear. One Image Source: Mobile Lords Monster Hunt GuideBenefits Monster HuntingMonster in Lords Mobile is a challenging task that requires patience, preparation and strategy. You can not simply send your herois to a hunt without proper planning, or you will be wasted, not just your time, but your resources as well. As most of the challenging missions in video games, the monster hunt task comes with impressive rewards for you and your guild companions if you do well. Always remember that anyone who takes down the monster get the best piece of pie.moreover, the reward to overthrow a monster will depend on your level. Some of the most common rewards in the game include 200-1000 gems, speed-up rolls, Shield (from 8 hours to 3 days), gold (15K-600K), heroi BaA's, Wyrn scales, Jade Orbs and Wyrn Jewels. Now that you have a general vision of the most exciting activity, the guide of hunt gentlemen, it is time for you to try and play this game on your PC. Play today! Monster hunting is a compulsory part of the Mobile Lords. You can even level your herois and help your alliance by killing the monsters. Anyone can hunt monsters while they are in a alliance. In this Mobile Lords guide, let's tell you what Monster Hunt is, how to use this feature, and that rewards are. Leta s began because the wonA € t monsters kill themselves. What is the hunting monster? Your kingdom is completely filled with monsters. They are spread all over the world and encourage herois to attack them.They are classified in levels. The weaker monster is the Level 1 and the strongest is the level 5. You can hunt them alone, but not just with a hero: you need to select a team of herois to defeat them. There are some requirements for hunting these monsters and one is: you must be in an alliance. Every time you hit a monster, you are rewarded. If you defeat a monster, your guild will be rewarded well. So when you're on a guild, and you guildmate kills a monster, you'll also be rewarded. However, the rare items always go to the killer. When the hunting in a monster you should focus on doing only one damage point. Because every time that hit the monster, you will have a boost damage to the next hit. Each hunt costs a different amount of energy based on the monster level. If you take a look at the upper left corner, when you are in the Game Screen: You will see the yellow energy bar with an icon of a radius. Leta s say that you have 1,000 energy. If a monster requires 1,500 energy to attack, you won € t be able to huilt it. Mastering the energy there are ways to reduce the amount of energy required to attack monsters. In addition, increase your amount of energy. First of all, you need to build a gym. This builder will give you the ability to improve your troops, monsterhunting and economy. To be able to hunt monsters more efficiently, points placed these skills: power limit: increases energy amountenergy recovery: you recover the energy more efficiently (without any search, your energy regenerates 1,800 points per hour) ENERGY SAVER: Reduces the amount of energy you needed to hunt MonstersMonster Hunter I: Increases MonstersAnimal Handling Damage: Increases your displacement speed during monster hunting. Remember that Monster Hunter skill is essential to attack top level monsters. If you want to hunt # 2 monsters, you need to unlock the Hunter II ability monster. There is also another ability that is called Hunter's aggressive and this ability increases the number of visits that deal against monsters. You should not invest some time in this ability, because it will not be benese. Selecting the perfect team as mentioned above, you need to select a team of herois to attack monsters with. You can add to 5 hergs, but randomly pick them up wonA € t be efficient. Monsters are divided into two categories: first category requires fansical damage and other magical damage needs. So, if you form a team of herois that you can only handle fansical damage, you won € t be able to kill a magic monster. First, open the world map, find the monsters, and click on what you are planning to hunt. You will see the statistics of that monster and what kind of attacks is sensitive to. Each monster has a specific vulnerability and you need to choose your team based on it. Here is a list of monsters and best hergs that combat them.: Monster NameheroStror Thorn.
