Bdo musa discord

With 22 different classes, and a ton of grinding needed to get them... somewhere, deciding your main class in Black Desert Online is not an easy task. Each one is truly unique in its playstyle, combos, and strategy, so you will definitely have to try at least 3 or 4 of them before you decide your main. This guide will help you decide which of the 22 classes feel "right" for you, along with helpful links to the official Discord server for each class. You are also able to identify which classes share Main or Sub weapons, therefore could provide you with some nice alternatives. Keep in mind that all Awakening weapons are unique, every class has its own. Without further ado, let's dive into the world of Black Desert, and discuss about each class separately! Female Classes Main Kriegsmesser Awakening Vediand Sub Ornamental Knot Class: Dark Knight | Outfit: Arethel | Weapon: Kibelius Class Release Date: March 1, 2017 Resource: EP Main Weapon: Kriegsmesser (exclusive) – Melee Sub-Weapon: Ornamental Knot (same with Berserker) Awakening Weapon: Vediand – Ranged Attack: Combo: Control: Defense: Evasion: Pros Easy Combos High Mobility Tons of AoE Damage Cons Glass Cannon 1v1s Tend to be Challenging Mana Potion Hungry Dark Knight is one of the most recognizable BDO classes aesthetically, and one of the most criticized as "underpowered" by players. She's been having a rough patch in PvP for a long time now, so you might encounter many people that would advise against playing DK. On the bright side, she still offers one of the fastest grinding experiences – as long as you have mana potions! Her main weapon revolves around strong, focused hits, while her awakening will let you destroy anything that blocks your path – from afar! The blending of melee attacks & spellcasting makes the DK a class that's hard to get bored with. Official Dark Knight Discord Main Battle Axe Awakening Jordun Sub Shield Class: Guardian | Outfit & Weapon: Ynixra Class Release Date: January 22, 2020 Resource: WP Main Weapon: Battle Axe (exclusive) – Melee Sub-Weapon: Shield (same with Valkyrie & Warrior) Awakening Weapon: Jordun – Melee Attack: Combo: Control: Defense: Evasion: Pros Easy Combos Tons of AoE Damage New Player Friendly Powerful in Both PvE & Node Wars Cons Slow / Predictable Animations Clunky Movement Hard to Escape from Fights Guardian is a Norm-like beast, that obliterates enemies in both PvP and PvE... with ease! Definitely a great option for new players, since she has some of the easiest to execute combos in BDO, with massive damage output, and great mobility – even though a bit cumbersome at that. You won't have trouble participating in any game mode as a Guardian, since your strength can easily match every opponent – once you grasp its mechanics. The big downside is that your power can easily be predicted by skilled players, therefore you might have a hard time contesting some spots. Official Guardian Discord Main Shortsword Awakening Sah Chakram Sub Kunai* Class: Kunoichi | Outfit & Weapon: Ayo Class Release Date: July 20, 2016 Resource: WP Main Weapon: Shortsword (same with Tamer & Ninja) – Melee Sub-Weapon: Kunai (same with Ninja, better for Kuno) / Shuriken (same with Ninja, better for Ninja) Awakening Weapon: Sah Chakram – Melee Attack: Combo: Control: Defense: Evasion: Pros Powerful at 1v1 Great Combo Variety Double Jump Cons High skill-cap (hard to master) Too Much Effort when Grinding Kunoichi – the female counterpart of Ninja – is an easy to fall in love with, but tough to master class! It's also the only class, along with Ninja, that uses 2 different sub-weapons, Kunai or Shuriken – even though Kunai arguably complements her skill choices far more. What she lacks in PvE and grinding speed, she definitely makes up for in 1v1 situations, so PvP enthusiasts will definitely get more out of her. Swapping your weapons back and forth is crucial to efficient Ninja-ing, and there's always things you could do better in a fight. If you're up to the challenge, give her a try! Official Kunoichi Discord Main Crescent Pendulum Awakening Crimson Glaives Sub Noble Sword Class: Lahn | Outfit & Weapon: Sanguine Petal Class Release Date: May 23, 2018 Resource: WP Main Weapon: Crescent Pendulum (exclusive) – Melee Sub-Weapon: Noble Sword (exclusive) Awakening Weapon: Crimson Glaives – Melee Attack: Combo: Control: Defense: Evasion: Pros Unique Mobility (Gliding) Closing Gaps in Combat Efficient Grinding New Player Friendly Cons Low Node War Potential Low Defense Lahn is one of the most enjoyable BDO classes, and the top recommendation for any beginner! They can glide long distances in the air – making them cover a lot of ground in a short time – as well as giving them the advantage of surprise attacks in PvP. Both her main and awakening weapons focus on close-quarters combat, but she does have a lot of ways to initiate a fight from afar – usually resulting in a beneficial positioning for Lahn. Her combos are fluent, and both weapons will have you feel like you're dancing with your enemies! Official Lahn Discord Main Blade Awakening Kerispear Sub Horn Bow Class: Maehwa | Outfit & Weapon: Order of the Apricot Class Release Date: April 20, 2016 Resource: WP Main Weapon: Blade (same with Musa) – Melee Sub-Weapon: Horn Bow (same with Musa) Awakening Weapon: Kerispear – Melee Attack: Combo: Control: Defense: Evasion: Pros High Single-Target Damage Great Mobility Efficient PvE Grinding Cons Low Defense Requires Good Game Knowledge Maehwa is a highly-mobile class with great burst damage, so you hold a big element of surprise in 1v1s, while benefiting from super-fast grinding speeds. She's very fun to play, and employs quite balanced mechanics, making her a great long-term investment. You single-target damage is one of the highest in the game, so you need to isolate your enemies in PvP, and watch out for the right openings before engaging. In Node Wars you will mostly be a flanker, while you can also scout efficiently for the enemies' forts, or other good opportunities to get your team ahead. Official Maehwa Discord Main Gauntlet Awakening Cestus Sub Vambrace Class: Mystic | Outfit: Default Class Release Date: December 13, 2017 Resource: WP Main Weapon: Gauntlet (same with Striker) – Melee Sub-Weapon: Vambrace (same with Striker) Awakening Weapon: Cestus – Melee Attack: Combo: Control: Defense: Evasion: Pros High Damage High Defense New Player Friendly Cons Everyone Hates You... Mistake! Mystic – more commonly known as Mystake ☹️ – is definitely the beefiest option you can get as a female BDO class. If you want to be hated by the whole community, withstand a sick amount of damage and still come out on top, then look no further. Offering a huge array of martial arts based combos, it's an easy to pick up – but hard to master – class. Mystics excel in PvE grinding, and due to their health regeneration abilities, they can challenge higher grinding spots with fewer gear requirements, and won't even need to carry any potions. Official Mystic Discord Main Morning Star Awakening Sting Sub Quorum Class: Nova | Outfit: Dobart Class Release Date: January 6, 2021 Resource: SP Main Weapon: Morning Star (exclusive) – Melee Sub-Weapon: Quorum (exclusive) – Shield Awakening Weapon: Sting – Melee Attack: Combo: Control: Defense: Evasion: Pros Efficient PvE Grinding Flexible Defensive Options New Player Friendly Cons Skill-Point Hungry Long Animations Nova is offering the "paladin" archetype to BDO's class roster, wielding a massive shield and a deadly morningstar, or a sword / scythe in her awakening form. As one of the most recent classes released, her animations and skillset are extremely polished, and far more approachable by new players. While her succession form feels like a more flexible version of the Guardian, her awakening feels like a sweet combination between the beloved Dark Knight & Sorceress classes, making Nova a super solid all-around choice, that truly shows what BDO combat is capable of! Official Nova Discord Main Longbow Awakening Kamasylven Sword Sub Dagger Class: Ranger | Outfit: Default Class Release Date: March 3, 2016 (since launch) Resource: MP Main Weapon: Longbow (exclusive) – Ranged Sub-Weapon: Dagger (same with Witch & Wizard) Awakening Weapon: Kamasylven Sword – Melee Attack: Combo: Control: Defense: Evasion: Pros Huge Range Great Positioning True Ranged / Melee Hybrid Cons Heavy Resource Management Glass Cannon High skill-cap (hard to master) Ranger is a fast-paced bow-wielder, that really shows how fun playing a bow can get in MMOs – complemented by BDO's in-depth skill rotations and mechanics. What you won't expect, is that your Awakening weapon is actually a melee sword! Some might get turned down from that (I know I did), but it offers true flexibility as you mostly want to keep a big distance with your opponents, and your sword can save you if get caught by them. There's probably no other BDO class that will require so much kiting, so if this is your preferred playstyle – you'll have a ton of fun with Ranger! You will also be very efficient in both PvE & PvP, and smart Rangers can make a real difference in Node Wars too. Official Ranger Discord Main Florang Sub Vitclari Class: Shai | Outfit: Default Class Release Date: June 26, 2019 Resource: MP Main Weapon: Florang (exclusive) – Melee Sub-Weapon: Vitclari (exclusive) Shai doesn't have an Awakening Weapon, and won't be getting one. Attack: Combo: Control: Defense: Evasion: Pros Powerful Heals Extra Gathering / Alchemy XP Extra Weight Limit The only support class Cons Reduced PvP Damage Low Damage Efficiency Shais are quite special in many ways, so if you wanted to avoid creating a lolli class, it'll be hard to! Starting off, it's worth mentioning that she's the only class that employs any kind of lifeskill advantages, with 10% extra Gathering / Alchemy XP, as well as a huge Weight Limit gain per level. I'm never changing my Witch lifeskiller, but for min-maxers it will definitely be a factor. On the other hand, even though PvE grinding with Shai is quite fun (her Florang weapon is an actual boomerang!), she really can't do any PvE damage, and her skill choices are mostly restricted to heals and buffs. This makes her essential however in large scale PvP, as she can provide huge support to her group, and it's really impossible to kill her. Official Shai Discord Main Amulet Awakening Scythe Sub Talisman Class: Sorceress | Outfit & Weapon: Khlath Class Release Date: March 3, 2016 (since launch) Resource: MP Main Weapon: Amulet (exclusive) – Melee Sub-Weapon: Talisman (same with Sage) Awakening Weapon: Scythe – Melee Attack: Combo: Control: Defense: Evasion: Pros Very fast PvE Grinding Tons of AoE Damage Great at 1v1 PvP Varied Mobility (Hard to Predict by Opponent) Sustainability & Adaptability Cons High skill-cap (hard to master) Not the first choice in Node Wars Mana Potion Hungry Low Defense Sorceress has been here since the beginning, and she's attracted a ton of attention throughout the years, both for her amazing PvE grinding skills, as well as her amazing potential in PvP – which is capped by your skill to a great, great extent on this one. Both of her weapons focus on close combat, and we're dealing with one of the classes where swapping back and forth your pre-awakening & awakening weapons is absolutely essential. Fortunately, it's quite easy to do so, with many skills "auto-swapping" you to the other weapon, saving precious time and making for some amazing combo & cc chains. Even though Sorceress is far from beefy, and her dodges seem to be limited, she's got a great evasion / sustain potential by making an efficient use of her invisibility skills and taking advantage of smart positioning. Official Sorceress Discord Main Shortsword Awakening Celestial Bo Staff Sub Trinket Class: Tamer | Outfit: Default Class Release Date: March 3, 2016 (since launch) Resource: MP Main Weapon: Shortsword (same with Kunoichi & Ninja) – Melee Sub-Weapon: Trinket (exclusive) Awakening Weapon: Celestial Bo Staff – Melee Attack: Combo: Control: Defense: Evasion: Pros Powerful at 1v1 Great Combo Variety A Pet that Fights, and Rides! Cons High skill-cap (hard to master) Too Much Effort when Grinding Glass Cannon Tamer is the true lolli in BDO, and I can guarantee lolli-fans are going to have a great time with this insanely complex, flexible, and powerful class! Lo.. I mean Tamer, is always accompanied by her trusty evil-dog-pet-thing "Heliang", which she can directly control and stun her enemies, or even use it as a mount instead of a horse! As you would expect, her defenses are very low, so she relies on smart positioning, dodging, and patience. With the right opening, she can unleash a endless stream of CC, and make quick work of any class that underestimated her! Don't go into Tamer expecting an easy ride – the only one you're getting is Heliang's. Official Tamer Discord Main Longsword Awakening Lancia Sub Shield Class: Valkyrie | Outfit & Weapon: Enslar Class Release Date: March 3, 2016 (since launch) Resource: SP Main Weapon: Longsword (same with Warrior) – Melee Sub-Weapon: Shield (same with Warrior) Awakening Weapon: Lancia – Melee Attack: Combo: Control: Defense: Evasion: Pros High Damage High Defense Block While Moving Cons Clunky Movement Heavy Resource Management High skill-cap (hard to master) Valkyrie is the Warrior's female counterpart, but their playstyle differs more than any other male / female class pairs in BDO. They use the same weapons, but in a quite different way, as Valkyrie will focus more on tanking damage and providing buffs & heals – which doesn't mean her damage isn't powerful! Her movement is quite clunky, making her inefficient for fast PvE grinding, but at the same time, her beeslowness will make her shine in high-tier PvE areas. Valkyrie is not an easy class, and you will have to dig deep into her mechanics, especially if you're planning to PvP with her, since your skill will determine her usefulness by a long margin. Official Valkyrie Discord Main Staff Awakening Aad Sphera Sub Dagger Class: Witch | Outfit & Weapon: Epheria Marine Class Release Date: March 3, 2016 (since launch) Resource: MP Main Weapon: Staff (same with Wizard) – Ranged Sub-Weapon: Dagger (same with Ranger & Wizard) Awakening Weapon: Aad Sphera – Ranged Attack: Combo: Control: Defense: Evasion: Pros Node War Queen Tons of AoE Damage Highly Efficient in PvE Grinding Cons Slow Casting Times Limited Mobility (but you have Blink) Witch plays a lot more than traditional MMOs, compared to the other fast-paced BDO classes. Most of your abilities have large casting times, so being many steps ahead of your opponent is crucial in your rotation. You will get limited openings to strike, but landing your spells will prove devastating for your enemies. Your Protective Ability (PA) is an essential Node War buff, and you can easily excel in large scale PvP – as long as you manage to keep out of your enemies' focus. 1v1s will be tougher, but also heavily reliant on your skill and game knowledge. Definitely a great all-around class, and a great suggestion for players coming from other MMORPGs, as the transition to BDO's fast action combat will be smoother. Official Witch Discord Male Classes Main Crossbow Awakening Greatbow Sub Ra'ghon Class: Archer | Outfit: Default Class Release Date: December 12, 2018 Resource: MP Main Weapon: Crossbow (exclusive) – Ranged Sub-Weapon: Ra'ghon (exclusive) Awakening Weapon: Greatbow – Ranged Attack: Combo: Control: Defense: Evasion: Pros Huge Range High DPS Efficient PvE Grinding New Player Friendly Cons Cannon Stamina Management Archer is a pretty Legolas bot, who's arguably more satisfying to play than Ranger, since the skill-cap is lower, and the range bigger! Kiting will be your bread and butter in both PvE & PvP, while you can unleash a huge amount of damage from afar, as well as Crowd Control abilities. Grinding with Archer is a breeze, and with smart positioning, you can undertake higher tier areas without many drawbacks. Similarly, you can make a big difference in Node Wars – as long as you stay out of the line of fire. Managing your Stamina and escaping dangerous encounters will be your main worries, as is appropriate for a bow-wielder! Official Archer Discord Main Axe Awakening Iron Buster Sub Ornamental Knot Class: Berserker | Outfit: Default Class Release Date: March 3, 2016 (since launch) Resource: WP Main Weapon: Axe (exclusive) – Melee Sub-Weapon: Ornamental Knot (same with Dark Knight) Awakening Weapon: Iron Buster – Melee Attack: Combo: Control: Defense: Evasion: Pros The Most Annoying Class for your Opponents Hard CC High Burst Damage Melee / Ranged Hybrid Cons Predictable Animations Ugliest MF in the Game Berserker is one of the most unique classes in BDO, both for his terrible aesthetics, and his ultra-fun fighting style. Your job is to disrupt the battlefield by stomping your enemies, or even taking them for aerial walks! Your burst damage will be more than enough to finish them off, unless you get "caught in the act" due to your long animations. You won't have any issues with Grinding, and there's also a high demand for Berserkers in Node Wars. Well, we both know that only a certain group of people would choose to play this atrocious class, so if you are one of them, you are guaranteed to find what you seek under his long, hairy arms. ☹️ Official Berserker Discord Main Shamshir Awakening Dual Glaives Sub Haladie Class: Hashashin | Outfit: Default Class Release Date: September 2, 2020 Resource: ? Main Weapon: Shamshir (exclusive) – Melee Sub-Weapon: Haladie (exclusive) Awakening Weapon: Dual Glaives Attack: Combo: Control: Defense: Evasion: Pros Good Combo Variety Great Mobility Cons Predictable Animations Low Defense Hashashin is a fast-paced... assassin, that feels like a more offensive – and less strategic – version of Ninja, as well as a unique take on the Sorceress class. He definitely reminds of the "Rogue" archetype from other MMOs, but what he lacks in stealth, he makes up with his mobility and surprise attacks. You employ a good arsenal of skills for clearing through PvE waves fast, and can more than stand your ground 1v1 (if you have a good understanding of the class' mechanics). In Node Wars you will have a flanking position though, so knowing how to play around the enemy classes will be crucial to your success. Official Hashashin Discord Main Blade Awakening Crescent Blade Sub Horn Bow Class: Musa | Outfit: Default Class Release Date: April 20, 2016 Resource: WP Main Weapon: Blade (same with Maehwa) – Melee Sub-Weapon: Horn Bow (same with Maehwa) Awakening Weapon: Crescent Blade – Melee Attack: Combo: Control: Defense: Evasion: Pros Insane Mobility Efficient PvE Grinding Good Single-Target & AoE Damage Cons Low Defense Resource Management Musa is a natural-born hunter, employing a huge array of dashes and gap-closers – and you really don't want to get caught in his blade! With smart resource management, Musa can literally never stop moving and slaying, making him an amazing pick for grinding, and a fun choice for 1v1 PvP. You are the Master of PvE clearing speed, while your role in Node Wars will be mostly flanking and scouting, since you have to be really careful before engaging any enemy. Once you successfully initiate though, it's GG for your opponent! Official Musa Discord Main Shortsword Awakening Sura Katana Sub Shuriken* Class: Ninja | Outfit: Default Class Release Date: July 20, 2016 Resource: WP Main Weapon: Shortsword (same with Kunoichi & Tamer) – Melee Sub-Weapon: Shuriken (same with Kunoichi, better for Ninja) / Kunai (same with Kunoichi, better for Kunoichi) Awakening Weapon: Sura Katana – Melee Attack: Combo: Control: Defense: Evasion: Pros Powerful at 1v1 Great Combo Variety Double Jump Cons High skill-cap (hard to master) Too Much Effort when Grinding Ninja is a high-skill / high-reward class, like his female counterpart Kunoichi. The ability to use Stealth and move undetected, opens up a new type of gameplay for BDO, since you will pick your fights more than they pick you! Your potential rises greatly with Skill Points, Gear and actual Skill, so Ninja's progression is definitely fulfilling. Not the best choice for PvE Grinding (not that you will have any problems doing it), Ninja is the King of 1v1 PvP. Large scale PvP will be tougher to manage, but it's also your chance to prove who is the true leader on the battlefield! Official Ninja Discord Main Kyve Awakening ? Sub Talisman Class: Sage | Outfit: Default Class Release Date: March 17, 2021 Resource: MP Main Weapon: Kyve (exclusive) – Ranged Sub-Weapon: Talisman (same with Sorceress) Awakening Weapon: Unannounced Attack: Combo: Control: Defense: Evasion: Pros Great Positioning Strong CC Big Ranged Damage Cons High skill-cap (hard to master) Long Animations Sage is the only caster-type class in BDO except for the Witch & Wizard, and through time & space manipulation he can easily reposition himself during combat, while raining terror to his enemies from afar. He definitely wields the flashiest and most colorful spell animations, bringing an essential element that has been missing from the world's magic! With strong CC and positioning he's definitely a strong PvP force on his own, offering great flexibility in either 1v1 or group PvP situations. Official Sage Discord Main Gauntlet Awakening Gardbrace Sub Vambrace Class: Striker | Outfit: Default Class Release Date: May 24, 2017 Resource: WP Main Weapon: Gauntlet (same with Mystic) – Melee Sub-Weapon: Vambrace (same with Mystic) Awakening Weapon: Gardbrace – Melee Attack: Combo: Control: Defense: Evasion: Pros High Damage High Defense High CC Cons High skill-cap (hard to master) Predictable Animations Striker – commonly known as Stroker ☹️- is the best choice for those that prefer a tankier class, able to sustain a ton of damage, and stay the longest in fights. He is really versatile in the roles he can take during a Node War, making it hard to go wrong with him. Arguably not the best at grinding, but your 1v1 power will be more than enough to keep you interested in contested spots! Striker truly shines in small-scale PvP scenarios, being an one-man army no one really wants to go up against. Official Striker Discord Main Longsword Awakening Greatsword Sub Shield Class: Warrior | Outfit: Default Class Release Date: March 3, 2016 (since launch) Resource: WP Main Weapon: Longsword (same with Valkyrie) – Melee Sub-Weapon: Shield (same with Valkyrie) Awakening Weapon: Greatsword – Melee Attack: Combo: Control: Defense: Evasion: Pros Hard to Kill in PvP Great Versatility Warrior is the male counterpart of Valkyrie, and he is much more offensive than her. He's definitely the most unique "Warrior" class you will find in any MMORPG, so prepare to be positively surprised! Few classes can take you on a 1v1, as your self-sustain is powerful. You won't be the quickest at grinding low-tier zones, but your efficiency in high-tier areas will more than make up for it. An essential tool for small or large scale PvP, having a good Warrior in the team can prove game-changing. Official Warrior Discord Main Staff Awakening Godr Sphera Sub Dagger Class: Wizard | Outfit: Default Class Release Date: March 3, 2016 (since launch) Resource: MP Main Weapon: Staff (same with Witch) – Ranged Sub-Weapon: Dagger (same with Ranger & Witch) Awakening Weapon: Godr Sphera – Ranged Attack: Combo: Control: Defense: Evasion: Pros Node War King Tons of AoE Damage Highly Efficient in PvE Grinding Cons Slow Casting Times Limited Mobility Wizard is more offensive than the Witch, having to get inside the heat of the battle in order to unleash his devastating AoE spells, then get out as quickly as possible! His presence on large scale PvP is essential, offering huge burst damage, as well as strong supporting abilities. The Wizard's long casting times make for strategic gameplay, that traditional MMO fans will certainly appreciate. You won't have any issues grinding low or high tier areas, but you should be extra careful about enemies, since if you're caught by surprise in a 1v1, you have very low chances of surviving – let alone dealing damage.
